FOREWORD

From its earliest days to the present, baseball has been the source of more literary endeavors than any other sport played and watched by humankind.

These endeavors have embraced books by such noted authors as Ring Lardner, James T. Farrell, Roger Kahn, Robert Creamer, and Roger Angell.

They have included memorable newspaper and magazine articles and columns by such gifted writers as Red Smith, John P. Carmichael, Grantland Rice, Damon Runyon and Heywood C. Broun.

They have also involved the production of countless encyclopedias, histories, annual guides, and team publications.

So, the question remains: Why is this so?

What is there about the game that inspires such massive and continuing efforts to capture the sport by way of the printed word and, it might be added, liens of individual and team statistics?

Its traditional allure was once alluded to by Red Smith when he wrote, "Ninety feet between bases is perhaps as close as man has ever come to perfection."

In featuring a near-perfect blend of field measurements, physical skills and strokes of luck, the game remains an appealing subject not only for professional writers but for free-lance authors, researchers and dedicated fans.

As such, it has been served with distinction by Professor Myron J. Smith's major works of baseball bibliography, especially the current volume, which includes information on virtually every conceivable facet of the game and where to find that information.

As editor of *Baseball Digest*, which was established in 1942, I regard the bibliography as an extremely valuable resource in our work to enlighten and entertain readers about our nation's greatest game.

I offer my heartiest congratulations to Professor Smith on a job well done. Researchers and students of baseball will find the four volumes of his latest work a precious reference tool.

INTRODUCTION

Baseball, that colorful summer game now played and viewed by millions, began well over a century ago, although how is still not certain. Ball games have been known since time immemorial and references to primitive forms of baseball exist as early as the 1700s. Legend, not fact, has it that Major General Abner Doubleday of Coopers-town, New York, devised the first scheme for the playing of baseball in 1839. Noted pioneer baseball writer Henry Chadwick in the early 1900s advanced the thesis that the sport was an improvement on the English game of rounders, an offshoot of the still-popular British game of cricket. We do know for certain that the American most responsible for the design of baseball as we understand it today was Alexander J. Cartwright. In 1845, he drew up the list of rules that formed the basis of the present-day game. Although the terms were a little different from ours (an inning was called a “hand” and a run was an “ace”), Cartwright’s rules were soon adopted by numerous teams, including his own New York Knickerbockers. The first organized and recorded contest was played at Elysian Fields in Hoboken, New Jersey, on June 19, 1845; the score was New York Nine 23, New York Knickerbockers 1.

In 1858, the National Association of Baseball Players was formed and the rules of the game began an orderly march of modification and codification which has continued. Professionalization of the game began in 1863 when Brooklyn players shared in the gate receipts. The following year, Alfred J. Reach claimed the honor of proclaiming himself the first “pro” player of the still basically amateur sport. During the 1850s and 1860s, baseball became increasingly popular; evidence sug-

gests many games were played by Civil War soldiers, especially those from the North. In 1860 when a committee was sent to notify Abraham Lincoln of his nomination for president, so the story goes, the members found the future chief executive in a baseball game, about to take his turn at bat. “Tell the gentlemen,” Lincoln supposedly told a messenger, “I am glad to hear of their coming, but they will have to wait a few minutes till I make another base hit.”

Harry Wright, a jeweler-by-trade, organized the Cincinnati Red Stockings as the first all-professional team in 1869, and two years later, the National Association of Professional Base-Ball Players was assembled as the first pro league. Following a reported, if not actual, rowdy existence, that body was replaced in 1876 by the National League of Professional Baseball Clubs. Largely the child of Chicago president William A. Hulbert, a real “fan” who never played a single game, but who became the new group’s first president, this NL became the dominant pro league for the remainder of the 19th century.

Three other major leagues existed between 1882 and 1891 (American Association, Union Association, Players’ League), but it was not until January 1903, when major league status was conceded to Byron (“Ban”) Johnson’s new American League of Professional Baseball Clubs, that baseball on the professional level came to the two-league parity we know today. From 1903 through 1921, Major League Baseball (MLB) was administered by a National Commission. In the latter year, following the revelations of the Black Sox scandal, the post of high commissioner (with an executive council) was created to oversee the sport. Judge

Kenesaw Mountain Landis was appointed the first Commissioner of Baseball and was, according to many observers, the only person ever named sole “dictator” of a national sport.

During most of these formative years for the pro sport and to the middle of the 20th century, black players were excluded from MLB. Those wishing to compete were required to do so in separate Negro Leagues, which flourished between the 1920s and 1950s, or on semi-pro or barnstorming teams. Following the destruction of the color bar by Jackie Robinson in 1947, the integration of the game continued apace and was later marked by a significant rise in the number of Hispanic and Asian players as well. Women, some of whom had played the game as early as the 1860s, have not been able to become MLB players or managers, though they had their own MLB-sponsored league, the All-American Girls Professional Baseball League, between 1943 and 1954. A few independent women’s leagues have come and gone, several as recent as the 1990s.

Meanwhile, baseball continued its popular appeal below the big white pro league level. Amateur, semi-pro, and minor league teams fielded thousands of players and citizens throughout the land enjoyed their play. Always popular in high school and college, baseball of an organized fashion became available to youngsters not only on the sandlot, but increasingly, in youth leagues of cities and organizations and later, nationally, through such groups as the American Legion and Little League Baseball Inc. Organizational improvements were also made on this level, including the establishment of the National Association of Professional Baseball Leagues (minors), the National Baseball Congress, and the baseball division of the National Collegiate Athletic Association. Industrial leagues were formed, and reformers found baseball a healthy outlet even in prisons.

With memories of the Black Sox, the color barrier, and even the squabble over allowing girls to play in Little League rapidly fading and attendance at baseball contests ascending yearly (despite some recent ebb and flow due to player job actions on the MLB level and concerns over steroid use), the “national pastime” retains today its claim as America’s premier sport. Additionally, it has also become a particular passion of people elsewhere, from the Southern Hemisphere and

Canada to the Far East and even portions of Europe. In 1984, baseball was presented as a demonstration sport at the summer Olympics in Los Angeles. By 1992, when the games were played in Atlanta, it had become a medal sport.

The Literature of Baseball

Just as “the Grand Old Game” grew rapidly in popular appeal after the 1840s, so, too, did media coverage of it. Here newspapers took the lead, one never really relinquished even after the introduction of glossy magazines, radio, television, and Internet chat rooms and blogging. Prominent for diamond coverage among newspapers in the early days and later were *The New York Clipper* (1853–1924); *Porter’s Spirit of the Times* (1856–1892); the Philadelphia-based *Sporting Life* (1883–1917); the game’s trade paper, *The Sporting News*, which has enjoyed publication in St. Louis since 1886; and *USA Today Baseball Weekly* (1991–2002), now *USA Today Sports Weekly*. Local newspapers in towns where pro teams existed also began intense coverage, some as early as the 1870s, while the journals of even the smallest communities came to report the activities of their area high school, college, semi-pro, amateur and minor league teams.

In addition to newspapers, books and periodical articles about baseball began to appear regularly by the close of the nineteenth century. The way was led by the annual guides, including Beadies, DeWitt’s, Reach, and Spalding’s, now largely amalgamated into works published each spring by *The Sporting News* organization. Yearbooks came to be issued by many commercial firms, beginning early in the 20th century, with perhaps the most famous being those from the firm of Street and Smith. Pro teams, too, began the publication of yearbooks in the 1930s and 1940s; by the 2000s, those of several teams featured not only roster data but independently written articles on organizational history, heroes, and special events.

Books on baseball have been published ever more frequently since the 1890s. These have often been the work of well-known newspaper men like Frank Graham, Thomas Meany, and Charles Dexter, accomplished literary figures such as Ring Lardner and Grantland Rice, and now, insightful

historians and game students, such as Harold Seymour, John Thorn, and David Q. Voigt, men following in the footsteps of the distinguished reporter-historian Frederick Lieb.

Baseball authors discovered the periodical press early; articles on the game began appearing in journals like *Harper's Weekly*, *Outing Magazine*, *Cosmopolitan*, and *Lippincott's Magazine* before the end of the 1880s. This trend intensified in the 20th century, especially in such popular magazines as *Collier's*, *The Saturday Evening Post*, and *Look*; indeed, hundreds of mass-circulation journals have published thousands of baseball-related articles since 1900. These have been joined in recent decades by more scholarly general or discipline oriented journals, as diverse as *The Journal of Popular Culture* and *Physician and Sports Medicine*. As interest in the economic and social side of the game has intensified, mainstream, regional, and company business journals and magazines have increasingly published articles on the diamond; *Business First of Buffalo*, *Marquette Journal of Sports Law*, and *Advertising Age*, to name three, often provide excellent coverage on baseball marketing, legal matters, minor and semi-pro activities, and other specialized facets. Popular sports periodicals and instructional magazines like *Sports Illustrated*, *ESPN: The Magazine*, *Scholastic Coach and Athletic Director*, and *Referee* annually publish a variety of baseball articles. Finally, there have been and are popular and scholarly journals devoted exclusively to the diamond. Prominent among these are *Baseball Magazine*, *Baseball Digest*, *Spitball*, *The Baseball Research Journal*, *Elysian Fields Quarterly* (formerly the *Minneapolis Review of Baseball*), and *Beckett Baseball Card Monthly*.

Libraries and Baseball

Libraries have long recognized baseball's popularity; indeed, parallels can be seen in the rise of the sport and in the development of public libraries at least through the Progressive Era. Since the 1880s, U.S. libraries, regardless of their size, mission, or clientele, have all included some of the game's literature on their shelves. Public and parochial school libraries and college and university libraries have added baseball works not only for general reading, but in support of aca-

demical programming and interschool competition. While baseball works are a natural for public library collections, they can also be found in hospitals with patient library services; the libraries of manufacturing concerns; on military bases, aboard ships, both cruise and naval; in the offices of newspaper, radio and television journalists and media libraries; in the collections of large advertising agencies; and in a variety of other special libraries too numerous to mention.

Libraries in former or present major- or minor-league cities, such as Louisville, Buffalo, Boston, Montreal, St. Louis, Philadelphia, Columbus, Detroit, Indianapolis, Birmingham, etc., maintain newspaper files, which are essential for research, particularly for those phases of the sport where general information is sparse or local events and heroes received little or no national coverage. These files complement often splendid collections of diamond literature in the libraries of smaller towns. In a few large cities like New York, Cincinnati, Cleveland, Pittsburgh, Detroit, Los Angeles, and Chicago, the major public and university libraries have developed parts of their local history collections or even entire special archives devoted to baseball. In these, as well as in the Library of Congress in Washington, D.C., can be found not only books, pamphlets, periodicals, guides, and newspapers, but business records of teams or prominent personalities connected to the sport, personal papers of players or umpires or journalists, journals and diaries, and various other manuscripts. These observations on the holdings of American libraries also hold true for libraries in those other nations where baseball is followed; e.g., Australia, Canada, Japan, South Korea, all of Latin and South America, and even some points in Europe, notably the United Kingdom.

No library, however, is more important to the student of baseball than the A. Bartlett Giamatti Research Center (the National Baseball Library), a division of the National Baseball Hall of Fame and Museum in Cooperstown, New York. Its significance warrants the following description, as drawn from its website (www.baseballhall.org/library/about.htm):

The National Baseball Hall of Fame Library was founded in 1939 as a part of the National Baseball Hall of Fame and Museum. Its mis-

sion is to collect, organize, and preserve the complete history of our National Pastime as recorded in all media formats, for the use of baseball fans and researchers.

Today, the Library contains the most extensive collection of archival material devoted exclusively to Baseball in the world. The collections include:

Literature: Tens of thousands of volumes including biographies, histories, encyclopedias, directories, dictionaries, fiction, poetry, children's books, and foreign language books.

Periodicals: Complete runs of *Baseball Magazine*, *Baseball Digest*, *Sports Illustrated*, *Sport*, and many other baseball publications.

Newspapers: A complete run of *The Sporting News* and extensive runs of the *New York Clipper*, *Sporting Life*, and other nineteenth and twentieth century newspapers.

Clipping files: Files on every man who ever played Major League Baseball, many Negro League players, women players, umpires, owners, executives, broadcasters, writers, scouts, and other baseball people. Among the hundreds of subject files are such diverse topics as baseball and politics, international baseball, major and minor league teams, awards, physics, Little League, and baseball tours.

Baseball guides: Complete runs of the Spalding and Reach Guides, the Baseball Blue, Red and Green Books, and other annuals.

Team publications: Extensive holdings of media guides, yearbooks, programs, scorecards, etc.

Player Contract Cards: A large collection of major and minor league player cards which trace the contractual history of almost every player who ever signed a professional baseball contract from 1900 to today.

Day-by-day statistics: A collection of baseball's official major league statistics. Box scores are available for nearly all major league games in history and a limited number of minor league games.

Archival materials: Special collections related to teams, owners, officials, and players, including the Doubleday papers, the Mills Commission papers, the Roger Angell collection, the Garry Herrmann papers, and the Landis papers.

The library is a public facility and thousands of researchers, Museum visitors, callers and correspondents are served annually. The majority are grass roots baseball fans. Others using the facilities include officials of organized baseball leagues and clubs, players and their families, print media journalists, radio and television journalists, the entertainment industry, the manufacturing and marketing industries, the advertising profession, students

of all ages, faculties of educational institutions, authors, publishers, genealogy researchers and other museums and libraries. A full-time professional staff is available to assist patrons.

Having outgrown its original quarters in the Museum by the 1960s, the Library moved to a new structure facing Cooper Park in 1968. The demand for baseball research material and archival resources has grown steadily in the last two decades as evidenced by a flood of baseball books, periodicals, trivia questions and motion pictures. In recognition of the Library's expanding collections, growing staff, and increased importance, the Museum's Board of Directors authorized construction of a major new addition and the complete renovation of the original building occupied in 1968. Construction and renovation work began in the fall of 1991 and was completed in 1994.

The A. Bartlett Giamatti Research Center, rededicated in memory of the former Commissioner of Baseball on July 26, 1998, can help you find answers to your baseball questions, large or small. Its vast collection of baseball books, magazines, newspaper clippings, and archival material is a rich source of information on baseball and related topics.

Should the user of this bibliography elect to travel to Cooperstown to examine any of the book's references, the NBL is open for research from 9 a.m. to 5 p.m. on weekdays (except on Thanksgiving Day, Christmas Day, and New Year's Day). Visitors wishing to use the Library's research facilities should report to the reference desk in the A. Bartlett Giamatti Research Center. Appointments are recommended, but every effort will be made to accommodate casual visitors as long as seating space is available. If you wish to ask a question of the staff, or have a quick look at a particular book or magazine article, please ask at the information desk. If a research staff member is available, such requests will happily be accommodated.

If you cannot make it to Cooperstown, you are encouraged to email the Research Center with your baseball questions; write or fax the Research Center using the Center's printable research request form. Research and reference questions emailed to the library will be answered in the order received, along with any such questions that are sent via U.S. mail, phone, or fax. Please allow at least eight to ten weeks for a response. Researchers

coming to the Hall of Fame are urged to make appointments at least a week in advance.

The Internet and Baseball

Since its beginning, baseball has had passionate followers who have not only played the game and viewed it, but spent countless hours viewing contests, reading and writing accounts, and dissecting the sport, by word or number. This band of followers was quite keen to take advantage of the possibilities offered by the Internet.

Starting in the mid-1990s, baseball enthusiasts have come to share resources and communication via the Internet, offering thousands and thousands of Websites on the many different aspects of diamond play and life. The most famous of baseball website directories, maintained by John Skilton, at www.baseball-links.com, noted (on March 13, 2005) that a total of 11,499 unique sites have been noticed. By visiting many of these sites, users have joined in what has become a new and global baseball community, capable of learning about up-to-the-minute sports news, major and minor league teams, baseball history, including the Negro Leagues and women's leagues, Rottisserie baseball, the business of baseball, baseball lore and literature, and amateur baseball from the Little League World Series to the College World Series.

In addition to the sites compiled by organizations and individuals, the Internet has become a grand tool for the bibliographic control and, in some cases, full-text presentation of baseball literature. This capability, unimagined during the compilation time for the first edition of this work in the early 1980s, has afforded a greater review of the literature of baseball than had been possible earlier. Thousands of library card catalogs can now be explored from the comfort of an arm chair without physical travel; books can be purchased from specialized dealers; and references (with or without text) to baseball books, periodical articles, newspaper reporting, and various documents can be examined. Just imagine, folks in Australia desiring knowledge of what baseball books are available in the United States or Japan can instantly check catalogs in libraries in either section. We in the United States can visit the National Library of Australia to learn about books

written on Australian baseball. No airfare, or what was more common, trekking to major libraries is necessary to consult national union book catalogs.

Additionally, scholarly and popular journals can be purchased online and, indeed, their contents can be ascertained through the use of various databases, many of which are carried on subscription by libraries. Several organizations have also begun compiling sport-oriented bibliographies of their own for distribution via the Web. These wonderful resources are discussed in Section A on Reference (following).

Objectives

The literature of baseball is vast and continues to grow at a fantastic pace. Conversely, bibliographical control in this area has, until recently, seriously lagged. One reason for this situation was, undoubtedly, the sheer mass of material available, even if one does not consider the hundreds of thousands of newspapers articles penned about baseball since the 1860s. Another seems to be that, despite much interest, little bibliographical work of size or consequence was accomplished before the 1970s.

As the user will see in the references in Section A's Bibliographies and Indexes, some bibliographical help, particularly in the form of periodical indexing, was available from about 1900 on, though this was often quite inadequate. Compilers of the few sports bibliographies unhappily faced the "Catch-22" dilemma encountered by all bibliographers who are facing large bodies of data and who are compiling for print. Because of space or publishing cost, fully or partially annotated guides could not list many titles (especially periodical articles) while comprehensive outings were forced to omit detailed or even sketch annotations.

The first major book-length bibliography on baseball was Anton Grobani's *Guide to Baseball Literature* (Detroit: Gale, 1975, 363 p; reprinted 2002 by Martino Publishing). Still, my colleague was only able to provide briefly annotated coverage for a few thousand references, most of which were to books or guides in series. In 1986, my guide appeared, providing, with its two supplements, coverage of about 35,000 items.

About this same time, the Sport Information Resource Centre of Ottawa began turning its computers toward the collection and subscription dissemination of citations and abstracts of newly published baseball and other sports publications. Its product, at first in paper, and now as the on-line product *Sport Discus*, is comprehensive and has a world wide focus.

Formed in the 1980s, the Bibliography Committee of the Society for American Baseball Research (SABR) spent much time studying alternate and specialized ways of attacking the bibliographic backlog. Late in the following decade, it launched its massive *The Baseball Index* (www.baseballindex.org), which offers more than 200,000 unannotated bibliographic citations, including thousands of only one page, the first 50 for any topic being made visible, with the remainder for sale; the tool's cousin, *The Baseball Library* (www.baseballlibrary.com) provides citations for players, 100 at a time, plus photos, book excerpts, and an electronic version of *The Baseball Chronology*, which is current through early 2002.

Both of these amazing tools are described in Section A, Bibliographies and Indexes. As it stands now, neither the SIRC or SABR resources provide completely free or easily available comprehensive reference and thus do not supplant the need for a second edition to this guide.

In the early 1960s, Casey Stengel was, supposedly, fond of saying, "You could look it up!" The "Old Perfesser's" line, though originally penned as the title of a 1941 James Thurber *Saturday Evening Post* story, remains true for the student or scholar of baseball. The question is where.

With 57,566 entries, the second edition of this bibliography is intended, as was the first, as a working tool which will make the "looking it up" chores more feasible. It is comprised primarily of English-language print sources (though French, Japanese, and Spanish language titles are included) which have appeared in a variety of sources published from the late nineteenth century onward, including some periodicals not yet founded or in their infancy in 1997, the year of the original edition's second supplement. The final cut-off date for entries is early March 2005. As indexing of this project began in May 2004, a few titles, published after that date or gathered in a final sweep (signified by an "a" after the entry

number), have slid in. The work is designed to assist the same group toward which the A. Barlett Giamatti Research Center aims its services, but with special attention paid to the needs of general readers and students, teachers, librarians, coaches, journalists, and diamond "buffs." Although the specialist, numbers fanatic, or Rotisserie player will find much of value within these covers, my goal was to provide information that would assist the average reader, be he or she a junior high school student, a college phys. ed. or business administration major, a student of genealogy or collectibles, a high school athletic director, a minor league executive, a city planner, etc. This is the largest and most comprehensive nonelectronic database print bibliography on any major American sport. My hope is that it will stand not only the test of time, but more importantly, the test of utility.

This effort attempts comprehensiveness by covering virtually all aspects of its subject. Annotations are provided for a number of entries, either as title enhancement or as introduction in the case of individuals. As a reference tool, it will enable the user to quickly determine much of what is available and help to establish a basis for further research. For example, it is known that more than 10,000 men have played MLB since 1876, with perhaps an equal number employed in support as umpires, managers, or executives. Section G, Individual Biography, contains references to 3,904 of these participants, from the obscure to such immortals as Ty Cobb, Babe Ruth, and Jackie Robinson. Other sections and subsections cover such diverse topics as history, minorities, baseball cards and collectibles, numbers and trivia, business and legal aspects of the pro sport, medical issues, youth and international baseball, instructionals, stadiums and equipment, lore and literature.

In general, the items cited are those the user might reasonably expect to find in larger university, public, or high school libraries, in addition to those specific repositories noted earlier under "Libraries and Baseball." Even moderate-sized libraries, such as the Wayne County Public Library in Ohio, Huntington North High School Library in Indiana, the library of Cal State-Fullerton, or the libraries of liberal arts institutions like Albright College in Pennsylvania or Tusculum Col-

lege in Tennessee, often contain excellent baseball collections which should not be overlooked. Should you be unable to turn up a given reference in your area, the location of almost every book, government document, and dissertation, plus many magazine articles can be ascertained electronically, as noted under "The Internet and Baseball," and are often available through interlibrary loan (sometimes in photocopy), details of which service can be obtained at your nearest library. Runs of newspapers and such journals as *Baseball Digest* are available commercially from a variety of companies, many of which make it possible to obtain individual article reprints for a fee, and, since the 1980s, within electronic databases, accessible at various libraries or by subscription. Bookstores and mail book distributors are a good source for baseball titles, with many of these having an Internet presence.

Selection Criteria

The criteria for selection are similar to those employed in the first edition and its supplements. The following types of published materials are represented, some with annotation: books and monographs; scholarly papers; government documents; doctoral dissertations; masters' theses; poetry and fiction in limited amount; novels, with these titles receiving the book's most complete annotation; pro team yearbooks and other publications; college and pro All-Star Game and World Series programs; commercially produced yearbooks, such as *The Baseball Register* and *Street and Smith's Official Baseball Yearbook*; and periodical and journal articles exceeding a page in length, including the first-ever complete analysis of the major diamond-oriented contents of *Baseball Magazine*, *Baseball Digest*, *Sport*, *Sports Illustrated*, and *ESPN: The Magazine*, to note a few. In addition, preparation of this edition has allowed me to backtrack and to include a number of titles omitted earlier for one reason or another. A full list of the 1,712 journals, periodicals and magazines consulted is provided.

Although much has been included, it was necessary to omit certain kinds of information and to be extremely selective with others. With as much internal turmoil as a fan feels with his team facing defeat in the ninth inning, I decided

to exclude references to book reviews, most poetry and music, and newspaper articles (unless reprinted in nonfiction anthologies or such compilations as the *Congressional Record*). Although the desire was present, space simply does not permit inclusion of citations from either *Sporting Life* or *The Sporting News*, the indexing of the latter being a strong component in SABR's *The Baseball Index*, noted earlier. Despite the most ardent research, it is probable that a number of sources, particularly to individuals, may have been excluded simply because they were not located. This may be especially true in the cases of Sunday newspaper magazine supplements, monthly airline journals, college alumni magazines, or glossy periodicals produced by state travel agencies or local chambers of commerce; the compiler had access to few of these.

In addition to several fiction guides and numerous histories, this compiler has published a variety of print bibliographies on sundry topics since 1969. Given that time and technology has marched on, this one may very well be my last. In the event that users have or find "non-newspaper" material relative to any topic or individual treated in this bibliography, that information should be forwarded to SABR for inclusion in *The Baseball Index*. SABR's current address, together with information on its committees, is provided at its Internet home page. It is hoped that its grand bibliographic effort may one day be free in its entirety to all who would consult it.

Arrangement

The seven main sections, A through G, with their subsections, form something of a classified index to this bibliography and the key to the manner in which the book is laid out. Within the text, each major section and some of the subsections begin with brief introductions, many with notes designed to guide the user to related references in other parts of the title. Each citation has an entry number and these numbers run consecutively throughout the volume. An index of names and subjects keyed to entry numbers is provided. During the 10 months required to complete the index, several additional citations were uncovered; these were, as noted above, fitted into

the original numbering system employing the lower case “a” (e.g., 5578a).

A special nod is reserved for John Kuenster of the Century Publishing Company. The dean of U.S. sports journal editors, John is writing his second foreword for a Smith guide. He has supported this baseball work from its beginnings in the early 1980s, also making it possible for me to index all of the numbers of *Baseball Digest*, as well as a number of other titles as well.

A professional librarian herself, my wife Denie accompanied me and assisted in the gathering of material, especially in New York. Her comments on and interest and help with this bibliography was great and is so very much appreciated. Perhaps one day soon, we can return to Cooperstown and take a little more relaxation in that quaint and historic village on the shores of Lake Otsego.

A. REFERENCE WORKS

Aside from general studies of the game and its history which are cited in Section B1: General Works and Histories, the sources noted here are concerned with items which may be considered to have ready-reference value. Section I provides data on those bibliographies and indexes which may be employed to update this guide in future years while Section 2 includes information on books and articles which contain definitions of the game's various aspects and quotes about it.

Section 3 covers a variety of topics, including annuals and guides, discussions of scoring and scheduling, guides to records, numbers, and statistics (stats) and works filled with detail for baseball trivia fans. Section 4 addresses baseball collectibles from uniforms to buttons, books, and posters to the ever-more-popular baseball cards. Finally, information technology, the World Wide Web, computer program and game reviews are addressed in Section 5.

1. BIBLIOGRAPHIES AND INDEXES

With the game of baseball into its third century, the control of literature relating to it has become a major struggle for historians, fans, teachers, journalists, public relations personnel, and librarians. The sources in this part offer significant assistance to those who would attempt to keep abreast of both current and historical writings on the subject; none of the references should be considered obsolete. The bibliographies contained in certain of the general works and histories cited in Section B are particularly helpful as are those in some of the individual biographies covered in Section G. These should be examined in addition to the titles noted here.

1. *Academic Search Premier*. Ipswich, MA: EBSCO Publishing, 1990-. An Internet subscription service which provides full text to 3,180 scholarly publications; updated monthly and a competitor to *Infotrac* (below).

2. *Academic Universe*. Bethesda, MD: LexisNexis Academic & Library Solutions, 1971-. Provides full text to articles, newspapers, periodicals, wire stories, laws, federal regulations, court cases, etc. in a continuously updated Internet subscription service widely available in larger libraries, particularly those of universities. Compare with OCLC's *ArticleFirst* (below).

3. Adomites, Paul. *The SABR Review of Books*. Cooperstown, NY: Society of American Baseball Research, 1986-. Annual. Contains extensive reviews, as well as both topical and bibliographic essays.

10. American Bar Association. *Entertainment and Sports Law Bibliography*. New York, 1986. 621p.

11. *American Book Publishing Record*. New York: R.R. Bowker, 1960–2000. Monthly listing of new books arranged by Dewey classification number with author and title indexes; although delivery time of paper issues has lagged, this is a helpful source for checking the production of new baseball titles. It is also available as an Internet subscription service.

12. *American City Business Journals*. Charlotte, NC: Bizjournals.Com, 1998–. Provides full-text entry to articles from 55 business journals across America; a very helpful free Internet site for those following the professional and business end of baseball over the past decade or so.

13. American Historical Association. *Writings on American History*. New York: AHA, 1908–1910; Washington, DC: AHA 1911–1913; New Haven, CT: AHA, 1914–1919; Washington, DC: GPO for AHA, 1921–1961; Milwood, NY: Kraus Reprint for AMA, 1962–. With gaps for writings published in 1904 and 1905 and 1941–1947, the series goes back to 1902; found more helpful for baseball articles than *America: History and Life*.

24. *Bibliographic Index*. New York: H.W. Wilson, 1937–. v. 1–. Helpful for the location of booklists; consult the headings "Baseball" and "Sports." Available as a subscription Internet database from WilsonWeb, beginning in Spring 2003.

24a. *Biography and Genealogy Master Index*. Detroit, MI: Gale Group, 1976–. As of early 2004, this on-line resource provided citations to 13.6 million profiles drawn from biographical dictionaries and who's who, subject encyclopedias, volumes of literary criticism, indexes, and reference works containing multiple biographies. Updated semi-annually with approximately 300,000 new citations added every time the database is reloaded.

25. *Biography Index*. Dublin, OH: OCLC First Search, 1984–. Originally a print publication, this Internet subscription service is updated monthly and provides coverage of more than 2,700 English-language periodicals and 1,800 books, many relevant to our topic.

30. Blickle, Calvin and Frances Corcoran. *Sports: A Multimedia Guide for Children and Young Adults*. Santa Barbara, CA: Clio Books, 1980. 245p. Covers a variety of sports in addition to baseball; useful for inclusion of non-print items.

31. *Book Review Digest, 1905–*. New York: H.W. Wilson, 1905–. v. 1–. Monthly. Helpful excerpts from reviews of many baseball books are included along with reviews for other subjects; except for the early years when no subject index was provided, a quick check in the back of each issue (especially the bound annual) under "Baseball" will reveal what is covered. More helpful in determining content than *Book Review Index* (Detroit, Mich: Gale Research, 1965–), but not as thorough in listing reviews to be found in various sources. Available with reviews from other Wilson indices in *Book Review Digest Plus*, a subscription Internet database available as part of WilsonWeb.

32. Burke, John G. and Ned Kehde, eds. *Access: The Supplementary Index to Periodicals*. Evanston, IL: John Gordon Burke Publisher, 1975–. May and September issues with annual hardback collection in June. Provides citations to articles in journals and magazines not usually found in *The Readers' Guide to Periodical Literature*, including the first major indexing for *The Sporting News* available commercially (see also the entry from Ned Kehde, below). Now also available as an online Internet database.

33. Burns, Grant. *The Sports Pages: A Critical Bibliography of 20th Century American Novels and Stories Featuring Baseball, Basketball, Football, and Other Athletic Pursuits*. Metuchen, NJ: Scarecrow Press, 1987. 284p.

34. *Business Periodicals Index*. New York: H.W. Wilson, 1958–. v. 1–. For students of baseball, this tool is valuable for economic/public relations citations in journals, some of which are also found in *The Readers' Guide to Periodical Literature*; full text articles from 1995 and indexing/abstracting since 1982 are also available as part of the Internet subscription database service, *Wilson Business Full Text*, from WilsonWeb.

35. *Business Source Premier*. Ipswich, MA: EBSCO Publishing, 1990–. An Internet subscription service comparable to the last entry or to the business *Infotrac* titles below; updated monthly, the work provides indexing and abstracts for some 2,600 journals.

44. Coppa and Avery Consultants. *Stadium Architecture*. Architecture Series, Bibliography A-710. Monticello, IL: Vance Bibliographies, 1982. 11p. Helpful guide to books, articles, and reports.

45. *Cumulated Magazine Subject Index, 1907–1949*. 2 vols. Boston: G.K. Hall, 1964. Examines 356 U.S. and British journals; especially helpful for the World War II years when no issues of *Writings on American History* were published.

46. *The Cumulative Book Index*. New York: H.W. Wilson, 1898–1999. Valuable for publishing information on English-language titles as they appeared; in addition to checking the subject heading of "Baseball," users will want to check the heading "Sports" and team names under cities having major league teams. Not overly helpful for the years before 1948.

47. *Custom Newspapers*. Detroit: Gale Research, 2000–. A subscription Infotrac service available over the Internet which provides full-text articles from 40+ U.S. and a few British dailies, including their sports sections. *The New York Times*, *Washington Post*, and *Nashville Tennessean* are among the titles indexed.

48. Davis, Lenwood G. and Belinda S. Daniels. *Black Athletes in the United States: A Bibliography of Books, Articles, Autobiographies, and Biographies of Black Professional Athletes in the United States, 1800–1961*. Westport, CT: Greenwood Press, 1981. 265p. Covers all sports, including baseball; very helpful for those interested in the status of black players before, during, and after the "color line" and students of the Negro Leagues.

49. Diefenthal, Muzette, et al. "Sports Pages: A Critical

Bibliography of Twentieth-Century American Novels and Stories Featuring Baseball, Basketball, Football and Other Athletic Pursuits." *Reference & User Services Quarterly*, XXXVI (Winter 1996), 218–219.

50. *Dissertation Abstracts*. Ann Arbor, MI: University Microfilms, 1938–1968.

51. *Dissertation Abstracts International "A" Schedule*. Ann Arbor, MI: University Microfilms/ProQuest, 1969–. Monthly continuation of *Dissertation Abstracts*' original coverage of the humanities and social sciences; the Internet dissertation source *UMI/ProQuest Digital Dissertations* is an excellent source to review the first 24 pages of UMI dissertations published after 1996. Users have the option of purchasing the entire dissertation in paper or digital form.

53. Dyal, Donald H. *20th Century Stadiums*. Architecture Series, Bibliography A-733. Monticello, IL: Vance Bibliographies, 1982. 16p. Helpful references to books and articles; covers all sports stadiums, including baseball.

54. Edmonds, Edmund P. "Postsecondary Athletics and the Law: A Select Bibliography." *Journal of College and University Law*, V (Fall 1977), 65–76. College sports, including baseball.

55. Educational Resources Information Center. *Resources in Education*. Washington, DC: US Government Printing Office, 1965–. v. 1–. An index to those papers and reports reprinted on microfiche as ERIC documents; includes occasional references to conference papers or instructional on baseball. Look in the subject index under "Baseball." The ERIC Document Reproduction Center now offers these documents online, as do both ProQuest and EBSCO.

56. *Education Index*. New York: H.W. Wilson, 1929–. v. 1–. Especially helpful in locating citations to instructional periodical literature in such journals as *Scholastic Coach* and *Athletic Journal*; examine the heading "Baseball"; full text articles from 1996 and indexing/abstracting since 1982 are also available as part of the Internet subscription database service, *Education Full Text*, from WilsonWeb.

57. Eley, Stephen. *Padwick's Bibliography of Cricket*. 2 vols. London: The Library Association, 1991.

58. *Expanded Academic Index ASAP*. Detroit: Gale Research, 1980–. Updated daily, this former CD-ROM product, now an Internet subscription service, is noted below under *Infotrac*, but listed here for its coverage of 2,300 periodicals, many of interest to students of our topic and most since the mid-1990s with full-text retrieval.

74. Grobani, Anton. *Guide to Baseball Literature*. Detroit: Gale Research Co., 1975, 363p. Often with brief annotation, this work covers books and documents from the 19th century to the 1970's, but no articles and few government publications. Bibliographic information for books does not include place of publication or pagination making it difficult to determine a regional library perhaps holding an item or the item's size. Extensive listing without annotation of fiction titles and books of poetry.
75. Hack, Paul. "Let's Research Saskatchewan's Baseball History." In: *Saskatchewan Historical Baseball Review 1990*. Battleford, SK: Saskatchewan Baseball Hall of Fame and Museum Association, 1990. Pp. 40–44.

79. Harrah, Barbara K. "Team Sports: Baseball." In: *her Sports Books for Children: An Annotated Bibliography*. Metuchen, NJ: The Scarecrow Press, 1978. pp. 258–307. Very helpful annotations to both adult and juvenile titles with heavy concentration on biography.
80. Hathaway, Ted. "The Baseball Index: SABR Effort, SABR Tool." *The Baseball Research Journal*, XXX (2000), 84–86. *The Baseball Index* <http://www.baseballindex.org> offers over 203,000 bibliographic citations, including thousands of only one page, the first 50 for any topic being made visible, with the remainder for sale; entry is by people, topics, and advanced search. The tool's cousin, *The Baseball Library*, <http://www.baseballlibrary.com>, provides citations for players, 100 at a time, plus photos, book excerpts, and an electronic version of *The Baseball Chronology*.
81. _____. "Using the Computer for Baseball Research." In: Gerald Tomlinson, ed. *How to Do Baseball Research*. Cleveland, OH: Society for American Baseball Research, 2000. Pp. 55–73. Covers the entire subject, with few problems as yet caused by age; an updated version, "Using Electronic Data Resources for Baseball Research," was published on the SABR web site in 2001.
82. Heltzmann, William R. and K. E. "Sports Literature and the Librarian: Opportunities to Mend, Mold, and Motivate." *Catholic Library World*, XLVIII (December 1976–February 1977), 207–213, 291–288. Should still be required reading by every librarian employing this baseball bibliography; comments on selected titles and how they might be employed.
83. Henderson, Robert W. *Early American Sports: A Checklist of Books by American and Foreign Authors, Published in America Prior to 1860, Including Sporting Songs*. 3rd ed., rev. and enl. Madison, NJ: Fairleigh Dickinson University Press, 1977. 309p. An especially valuable guide to 19th century imprints relative to baseball; the author is noted for his work in late 1930's and early 1940's on baseball history which culminated in his 1947 book *Ball, Bat & Bishop: The Origin of Ball Games* cited below.
84. Higginson, A. Henry. *British and American Sporting Authors: The Writings and Biographies*. Berryville, VA: Blue Ridge Press, 1949. 439p. Helpful coverage of prominent sports writers, including those penning works on baseball.
85. Higgs, Robert J. *Sports: A Reference Guide*. Westport, CT: Greenwood Press, 1982. 317p. Includes baseball.
86. Hobbs, Joseph P. and William H. Beezley. "American Sports: History and Sociology." *Choice*, XIII (February 1977), 1547–1562. A particularly useful bibliographic essay which covers the sociological, economic, and historical writings on sport with attention to late 20th century studies.
87. Hoffman, Sharon. "The 'Ins' and 'Outs' of Baseball and Books." *Illustrated Librarian*, LXXII (April 1990), 334+.
88. *Humanities Index*. New York: H.W. Wilson Co., 1975–. v. 1–. Broken off from the old *Social Sciences and Humanities Index*; includes references from time to time on the historical aspects of baseball; full text articles from 1995 and indexing/abstracting since 1984 are also available as part of the Internet subscription database service, *Humanities Full Text*, from WilsonWeb.
89. *Index to Legal Periodicals* New York: H.W. Wilson Co., 1907–. Especially valuable for citations in legal journals dealing with such baseball issues as collective bargaining, proposed antitrust legislation, the formation of new leagues, etc.; full text articles from 1994 and indexing/abstracting since 1981 are also available as part of the Internet subscription database service, *Index to Legal Periodicals & Books*, from WilsonWeb.
90. *Infotrac*. Detroit, MI: Gale Group, 1980–. *Infotrac*, a series of subscription databases once published by the Information Access Company under the name *SearchBank*

and which first gained wide usage in CD-ROM format, now offers its valuable subscriptions via the WWW under this title. The most useful for purposes of baseball research are: *Expanded Academic ASAP*, *Health Reference Center*, *General Business File ASAP*, *Biography Resource Center*, *Literature Resource Center*, *Legaltrac*, *National Newspaper Index*, *Infotrac OneFile*, and *Informe*. An extremely important source for students of baseball who would have full current indexing of *The Sporting News*. Users may also wish to consult the competing *ProQuest Direct* (below).

113. *Masters Abstracts*. Ann Arbor, Mich: University Microfilms, 1962-. v. 1-. A continuing guide to M.A./M.S. study in all areas, including sports and baseball; indeed, *Masters Abstracts* often contains more baseball titles in a given year than *Dissertation Abstracts*.

114/115. May, William R. "Sports." In: Richard G. Powers and Hidetoski Kato, eds. *Handbook of Japanese Popular Culture*. Westport, CT: Greenwood Press, 1989. pp. 167-196.

116. McCue, Andy. *Baseball By the Books: a History and Complete Bibliography of Baseball Fiction*. Dubuque, IA: William C. Brown, 1990. 175p. Covers novels, short story collections, cartoons, and dime novels in 1,300 citations.

117. McEvoy, Dave. "Baseball Fights Back." *Publisher's Weekly*, CCXLI (February 14, 1994), 28-30. Contest with popularity of basketball literature.

118. _____. "On and Off the Field of Dreams: Hard Economic Realities of the '90s Have Brought a New View of America's Favorite Pastime." *Publisher's Weekly*, CCXL (February 1, 1993), 60-65.

119. *MCI Insight*. Producer: MCI International/NSI, Inc., 333 East River Dr., East Hartford, CT, 06108. 800-624-5916. Provides a variety of news and feature story citations to baseball.

120. Mehrer, Darlene. "The Cubs in Literature." *SABR Review of Books*, IV (1989), 7-18. Bibliographic essay on the Chicago Cubs

121. Melnick, M. J. "Selected Bibliography of Psychosociological Factors Related to Athletic Team Performance." *Physical Educator*, XL (May 1983, 92-94).

122. Merkel, Paul. *Bibliography of Baseball Films and Publications*. Hamilton Square, NJ: United States Baseball Federation 1980. 98p. For its listing of films, something neither Grobani nor I attempt, this \$5 paperback publication was worth the price; unfortunately, the bibliographic information on book titles is very incomplete.

123. Millman, B. "North American Information Sources." In: M. Shoebridge, ed. *Information Sources in Sports and Leisure*. London, Eng: Bowker-Sauer, 1992. Pp. 279-306.

125. Mott, Margaret M. (comp). "A Bibliography of Song Sheets: Sports and Recreations in American Popular Songs: Part II." *Notes*, VII (September 1950), 522-562. Primarily baseball songs.

126. *Names in the News*. New Canaan, CT: NewsBank,

Inc., 1978-. With monthly and annual collections, this is an excellent source for biographical data in newspaper Sunday supplements.

127. National Baseball Hall of Fame and Museum. Library. *Women in Baseball: A Selective Bibliography*. Cooperstown, NY, 1997. 11pp.

128. *NDEX (Newspaper Index)*. Wooster, OH: Bell & Howell, Publication Systems Division, 1979-1988. Also cites stories from major newspapers, such as *Christian Science Monitor* and the *Los Angeles Times*.

129. New York Public Library. *The Spalding Baseball Collection*. New York, 1922. 44p. Reprinted from the February 1922 issue of the *New York Public Library Bulletin*; describes the largest collection of baseball, documents and publications presently held outside of the National Baseball Library.

130. *The New York Times. The Index*. New York: The New York Times Company. 1913-. v. 1-. Detailed subject index, extremely successful in opening up the contents of the paper by exact citation to page and column. The period prior to 1913 is covered in *The New York Times Index for the Public News of [1851-1912]* (New York: R.R. Bowker, 1966). Recommended use with *Personal Name Index to The New York Times Index, 1851-1974*, cited below. The Chadwick-Healey on-line subscription service, *ProQuest Historical Newspapers Online*, covers the same newspaper from 1851-2000, with more issues being added annually. Although the baseball bible, *The Sporting News*, began publication in the 1880's, it did not begin to receive commercial indexing until the advent of *Access* (q.v.). Nevertheless, judicious use of these *The New York Times* indexes will assist baseball scholars by giving them the approximate dates of baseball events, which may then be checked against the appropriate back issues of *The Sporting News* weekly.

131. *News/Retrieval Sports Report*. Princeton, NJ: Dow Jones, 1985-. Very helpful; provides full text of sports news and statistics as compiled by UPI, via an Internet subscription service.

132. *Nineteenth Century Readers' Guide to Periodical Literature, 1890-1899, with Supplementary Indexing, 1900-1922*. 2 vols. New York: H.W. Wilson, 1944. Thoroughly covers by author and subject some 51 magazines with 14 indexed beyond 1900 to 1922; helpful for citations to articles concerning baseball and its players in the 1890's, now included in the Internet subscription database *Reader's Guide Retrospective*.

133. Noverr, Douglas A., ed. *Sport History: Selected Reading Lists and Course Outlines from American Colleges and Universities*. History Syllabi Series. New York: Markus Wiener Publishing, Inc., 1987. 255p.

134. Nueckel, Susan, ed. *Selected Guide to Sports and Recreation Books*. New York: Fleet Press Corp., 1974. 168p. A few baseball titles are included in this general bibliography.

135. Nunn, Marshall E. "Indexing of Sports and Outdoor Recreation Periodicals." *Serial Review*, V (January 1979), 51-54.

136. _____. *Sports*. Spare Time Guides, no. 10. Littleton, CO: Libraries Unlimited, 1976. 217p. Nunn's article examines the state of sport magazine indexing while his bibliography lists titles in all sports, including baseball.

137. *OCLC WorldCat*. Dublin, OH: OCLC, 1999-. Union catalog of materials held by over 24,000 OCLC member libraries; updated daily, this Internet subscription service is the largest single source for, primarily, non-periodical baseball material, including books, music files, computer files, photos, etc., many cataloged in the libraries

of such institutions as The New York Public Library, Library of Congress, and the National Baseball Library. Available at larger public libraries and many colleges and universities; see also *First Search* (above).

142. Plant, David. "Books Cover World Series History." *USA Today Baseball Weekly*, I (October 18, 1991), 47-48.

143. *Poole's Index to Periodical Literature*. 6 vols. in 7. New York: Peter Smith, 1938. Originally published in Boston during the last two decades of the 19th century, Poole's was the first general periodical index and forerunner of *The Readers' Guide*. The approach is totally by subject with no entries under author unless the author was the subject (e.g., Henry Chadwick). Although baseball literature access is scant via this tool, it is the best available prior to the *19th Century Readers' Guide* (qv.) or *Reader's Guide Retrospective* (q.v.).

144. *ProQuest Direct*. Ann Arbor, MI: ProQuest Information and Learning Co., 1989-. Provides indexing to 2,000+ periodicals and newspapers since 1989 with full text available for about 1,200 since 1992. A major competitor to *Infotrac* (q.v.).

145. *ProQuest Historical Newspapers Online*. Ann Arbor, MI: ProQuest Information and Learning Co., 2002-. Continuous updating with rolling walls of coverage. Provides entry into *The New York Times* (1851-2000); *The Wall Street Journal* (1889-1986); *The Washington Post* (1887-1987); *The Christian Science Monitor* (1908-1990); the *Los Angeles Times* (1881-1984); and the *Chicago Tribune* (1849-1984).

146. *Readers' Guide Retrospective: 1890-1982*. New York: H. W. Wilson Co., 2003-. An Internet subscription database which provides indexing of some 375 leading magazines back as far as 1890; the 1890's portion is drawn from the *19th Century Reader's Guide* (q.v.).

147. *The Readers' Guide to Periodical Literature, 1900-*. New York: H.W. Wilson, 1905-. The most common of English language popular magazine indexes is, for baseball, the first source for those seeking periodical citations; valuable for its analysis of *Literary Digest*, *Collier's*, and the *Saturday Evening Post* during the 1920's to 1950's, this tool became even more helpful in the 1960's and 1970's when it began coverage of those two dominant sports magazines *Sport* and *Sports Illustrated*; full text articles from 1994 and indexing/abstracting since 1983 are also available as part of the Internet subscription database service, *Readers' Guide*, from WilsonWeb.

Athletics in the United States, 1875–1969." In: Earle F. Ziegler, ed. *A History of Physical Education and Sport in the United States and Canada*. Champaign, IL: Stipes Publishing Co., 1975. Pp. 403–430.

170. *Social Sciences and Humanities Index*. New York: H.W. Wilson, 1916–1974. Provided indexing for the years 1907–1974 when broken up and continued as two separate titles; lists journals (many relative to baseball economics and sociology) to be found in journals a bit-too-specialized for inclusion in *The Readers' Guide*.

171. *Social Sciences Index*. New York: H.W. Wilson, 1975– v. 1–. Broken down from the last citation, this tool provides article coverage for those journals which, like those covered in its companion *Humanities Index*, are too specialized for inclusion in *The Readers' Guide*; helpful for those seeking information on the economic/ social side of the game, *Social Sciences & Humanities Index Retrospective: 1907–1984* provides retrospective indexing, while *Social Sciences Full Text* provides indexing back to 1984 and full-text of cited articles after 1995; both are available as Internet subscription services from *WilsonWeb*.

172. Sport Information Resource Centre. *Sport and Fitness Index*. Gloucester, Ont., Canada. Sports Information Resource Centre, 1984–1985. Paper index issued monthly, v.11–v.12; issues irregular, Vol. 11, no. 4/5 (Apr./May 1984)–v. 12, no. 10/11/12 (Oct./Nov./Dec. 1985). Superseded the *Sport and Recreation Index*. A current-awareness listing of references to articles, identified and indexed from a variety of sport/recreation magazines and journals. In the same format as the *Sport and Recreation Index*, each issue listed over 1400 references. There is a specific section devoted to references to baseball magazine literature in each issue.

173. _____. *Sport and Recreation Index*. Gloucester, Ont., Canada. Sports Information Resource Centre, 1977–1984. Paper index issued monthly, v. 4–v.11. Superseded by the *Sport and Fitness Index* (above). An extensive index to articles, identified and indexed from a variety of sport/recreation magazines and journals. References to material on baseball are found under the specific heading, baseball. Each indexed document has been assigned a level of research difficulty (B–basic; I–intermediate; A–advanced). References to advanced-level material were also accompanied by an English-language abstract. Each reference was accompanied by a specific order number which allowed for easy document ordering direct from the Sport Information Resource Centre.

174. _____. *Sport Articles*. Ottawa: Sport Information Resource Centre, Sept. 1974–Oct. 1977, v. 1 (1)–v. 4 (10). Superseded by the *Sport and Fitness Database*. An index to articles, identified from a variety of sport/recreation magazines and journals. References to baseball are found under the specific heading, baseball. Each reference is accompanied by an ordering number, which allowed for easy document ordering directly from The Sport Information Resource Centre.

175. _____. *Sport Bibliography*. Ed. by I. Draayer, et al. Ottawa: Sport Information Resource Centre, 1981–1982. Essentially a printed subject access, in 8 volumes, to the unique *Sport and Fitness Database*, produced by the Sport Information Resource Centre. Contains over 70,000 references to articles, books, theses, research papers and conference proceedings in over 30 different languages. Volume 2 of the set contains an extensive section on baseball, subdivided into such topics as history, medicine, strategy, technique and training.

176. _____. *Sport Bibliography*. Gloucester, Ont., Canada.

Sports Information Resource Centre, 1985–1986. . Paper index issued annually, v.13–v14.

177. _____. *Sport Bibliography: 1983 Update. Compiled by Linda Wheeler*. 2 vols. Gloucester, Ont., Canada: Sports Information Resource Centre, 1983. The 2-volume set, containing over 28,000 references, updates the original 8-volume set. Volume 1 contains an extensive section on baseball as well as other team sports.

178. _____. *Sport Discus*. Wellesley Hills, MA: Silver-Platter Information, Inc, 1975–. CD-ROM format. Updated semiannually; an Internet subscription version became available in 1999 and is updated monthly. Links to selected full-text articles are available to users of the subscription service hosted by additional cooperating vendors, including EBSCO, Dialog, OVID, and DataStar. SIRC, which maintains copies of more than 75% of all references indexed, also maintains a fee-based document delivery service, *SIRCEXpress*, which will provide copies, electronically or by mail, fax or courier. *Sport Discus*, as an indexing tool, replaces all of the SIRC paper indexes noted above, as well as *Reader's Guide to Periodical Literature*, as a first stop for baseball researchers.

179. _____. *SportSearch*. Gloucester, Ont., Canada: Sports Information Resource Centre, 1985–1998. Paper index issued monthly, v. 1–v.14.

180. Starbuck, James C. *Stadiums: A Bibliography*. Exchange Bibliography, no.

681. Monticello, IL: The Council of Planning Librarians, 1974. 24p. Useful coverage of the then-current vogue of domed arenas.

181. *Subject Guide to Books in Print*. New York: R.R. Bowker, 1957–. v. 1–. Together with *Cumulative Book Index* (q.v.), this list (actually an index to the *Books in Print* author-title volumes) provides an annual and fairly-comprehensive list of titles available for purchase in the English language, mostly from U.S. sources. Not always helpful for works published by lesser-known firms. Check the headings “Baseball” and “World Series” as well as those for players such as Babe Ruth; if a copy of the print edition is not available to you, many libraries participate in the annual Internet subscription service; if all else fails, users should employ the indexing available from Amazon.Com.

2. DICTIONARIES, TERMS AND QUOTES

What is a “gopher ball”? Who may qualify as being a “pilot”? Who supposedly said, in answer to an inquiry, “You could look it up!”? Many of the sources in this part are designed to assist users

in understanding the sometimes confusing, strange, or funny terminology of the game, a language sometimes referred to as “baseballese.” Other references here will facilitate the identification of fa-

mous and infamous quotes, remarks, insults, and wisecracks uttered by the great and the unknown since the mid-19th century. Although the majority of these citations are aimed at a general audience, several, such as Mary Remmers' *Ducks on the Pond* or Edward Nichols' "A Historical Dictionary of Baseball Terminology," were designed for specific age- or interest groups or the more scholarly in and out of the game.

3. ANNUALS AND GUIDES, SCORING AND SCHEDULING, RECORDS, STATS, AND TRIVIA

This part is a composite designed to cover several related topics, both general and specific. Here the user will find citations to baseball annuals and guides, the process of scoring actions on the field, the often difficult art of scheduling contests, and works developed purely for the exhibition of records and statistics (stats) and discussion of baseball numbers. The thirst for baseball trivia may never be quenched, even though we have entered here almost all the many titles published in recent years aimed at specifically satisfying the minutia buff. As an additional assistance, particularly for the uninitiated, we offer these formulas for “figuring baseball statistics” (from American League of Professional Baseball Clubs, *1984 Red Book* [New York, 1984], p. 57):

- Batting Average — Divide the number of base hits by the total number of times at bat.
- Pitching Earned Run Average — Multiply the total number of earned runs by nine, and divide the results by the total number of Innings pitched.
- Won-Lost Percentage — Divide the number of games won by the total number of games played.
- Slugging Percentage — Divide the total number of bases of all base hits by the total number of times at bat.
- On-Base-Percentage — Divide the total number of hits plus bases on balls plus hit by pitcher by at bats plus bases on balls plus hit by pitcher plus sacrifice hits.

B. SCORING AND SCHEDULING, RECORDS, NUMBERS AND STATS

Certain other references to the four topics covered here are also found elsewhere in subject-specific parts. Examples include "Championships" in Chapter B and "Rookies" in Chapter F. The single most helpful guide to the literature of baseball statistics and baseball statistical research is Charlie Pavitt's *Statistical Baseball Research Bibliography* <<http://www.udel.edu/communication/pavitt/bbref.htm>>, which, along with references to many books, includes articles from baseball journals (most notably the *Baseball Analyst*, *The Baseball Research Journal*, and *By the Numbers*), academic journals (for example, *Operations Research*), and a few web sites. In the interest of saving space and not reinventing the wheel, we have attempted to avoid relisting the titles in Pavitt's impressive tool.

4. AUTOGRAPHS, BASEBALL CARDS AND COLLECTIBLES

Since the latter decade of the 19th century, fans and others interested in baseball, especially its professional teams and players, have sought souvenirs or other remembrances of the game. Today, the number of items available seems almost limitless; buttons and coins, posters, caps and other uniform parts, bats and balls, mugs and glasses, pennants, T-shirts and jackets, stickers, pencils, etc., may be had in infinite variety. For some, the most enjoyable collectible is the baseball card, first developed and circulated years ago as an advertising gimmick.

In the years since the publication of the first edition of *Baseball: A Comprehensive Bibliography*, the literature on hobby aspects of baseball, including especially baseball cards (now often seen as a business or investment), has grown significantly. The citations in this part specifically cover baseball cards and other collectibles and are designed to acquaint readers with the variety and sometimes the prices of these often-fascinating mementos. For ease of handling, the covered works are divided into three parts, the size of which reflect publication growth: autographs,

baseball cards, and collectibles. It should be noted that a few citations relative to this topic are found elsewhere, e.g., references to the baseball cards of certain players are found in Chapter G (“Individual Biography”).

5. INFORMATION TECHNOLOGY, THE WORLD WIDE WEB, COMPUTER PROGRAM AND GAME REVIEWS

There are, according to John Skilton's massive list, *John Skilton's Baseball Links*, over 11,000 sites on the World Wide Web devoted to baseball. If some of those were broken down by subpages, there would be even more. We recommend that initial World Wide Web users employ the Skilton guide, as well as the SABR sites noted as their entryports into the colorful world of baseball on the net. Seamus Kearney's original essay *Baseball on the Net: A Primer for Computer Access to Baseball Information* <http://www.skypoint.com/~ashbury/_bbtn/linkonnet.html> in its revised December 1994 edition is still a helpful guide.

What we offer are references to print sources that discuss various aspects of the electronic baseball world.

B. GENERAL WORKS, HISTORY, AND SPECIAL STUDIES

The references in this section cover a variety of topics categorized here for purposes of organization. Section I is devoted to baseball history in general with parts on general studies of the game and its background, early history to 1901 and modern history from 1901 through 2004.

Section 2 provides coverage of a variety of diverse subjects, including Minorities in Baseball; the Imaginative Culture of Baseball; Spring Train-

ing and Opening Day; All-Star Games from 1933 through 2004, including Old-Timers Games; and all World Series contests through 2004. In addition, this section contains works that examine the National Baseball Hall of Fame and Museum and Other Sports Museums; the Business and Health of Professional Baseball; Broadcasting and Baseball Print Journalism; and Baseball Fans.

1. GENERAL WORKS AND HISTORIES

The sources in this section are designed to draw together as many of the general works and histories of the game as possible. Here the user can find information on the history of the game since the beginning. Users should note that most of the other sections of this guide inevitably contain historical information, be it on events such as the World Series, teams, stadiums, economics, or biography.

A. GENERAL WORKS AND HISTORIES

The sources are those general works providing multilevel examinations of the game (history, biography, technique) and history that cover more than one team or time frame. For example, the history of baseball in Toledo, Ohio, will be covered, while history related to minor league baseball in that Buckeye community will be indexed in C:4, The Minor Leagues, below.

B. EARLY BASEBALL TO 1901

As the citations demonstrate, the epic of baseball's beginnings has been chronicled in whole or in part many times. From the English game of rounders to the legend of Cooperstown and the achievements of Alexander J. Cartwright to the development of the National League and its competitors, the story of the national pastime's emergence is one of rough and ready activity on and off the field. This formative period has left a heritage which is today the greatest in all organized sport.

The entries in this part are directly concerned with baseball's growth in the years to 1901, when the American League was formed. The entries review not only great teams like the Cincinnati Red

Stockings and leagues like the National League, but play in various cities and states, the Cooperstown foundation controversy, early statistics, and so forth. References to specific major leagues (all but the NL and AL being doomed) and teams will be found in Part C, Professional League and Teams, while references to the play of minorities are in Part B:2:a, Minorities in Baseball.

C. THE MODERN ERA

In 1901, Byron Bancroft Johnson, president of the Western League, moved to establish a second major league, which he called the American League. In so doing, he not only began a struggle that was resolved two years later with his success, but began the modern era of baseball that continues to this day. Johnson's AL gained parity with the older National League in 1903 and the pact of that January was more or less cemented with the establishment in October of what would become the country's greatest fall event, the World Series, a championship contest between the two best teams in each league.

The 1903 settlement between the AL and NL led to the creation of a national commission for the governance of pro ball. After the Black Sox Series of 1919, this idea was scrapped in favor of a baseball commissioner system that remains in place today. During most of this century, the caliber of play improved, a livelier ball replaced the so-called "dead" one, teams shifted from city to city, media coverage increased, player demands were addressed and fought, stadiums came and went and, yet, the game retained much of the essential flavor that drew fans to it in the old days.

The entries in this part are directly concerned with those more general works that address the history of baseball's modern era, especially the professional game. To more conveniently present the numerous citations collected, this part is subdivided into two sections: 1) general works and 2) selected seasonal references, the latter entered by date, decade and year. References to specific major leagues (all but the NL and AL being doomed) and teams will be found in Part C, Professional League and Teams, while references to the play of minorities are in Part B:2:a, Minorities in Baseball.

2. SPECIAL STUDIES

These sections bring together a number of diverse but interconnected subjects. For example, the business of professional baseball may be examined in relation to spring training and the World Series while baseball fans may be seen in the light of business or All-Star Game balloting. The parts highlighted are: Minorities in Baseball; the Imaginative Culture of Baseball, including Art, Film, Literature, Music, Religion and Superstition, Nicknames and Mascots; Spring Training and Opening Day; All-Star Games; Championships, Including the ACLS, NLCS, and The World Series; the National Baseball Hall of Fame and Museum and Other Sports Museums; the Business and Health of Professional Baseball, including Economic and Legal Issues, Antitrust and Labor Relations, Unionism and Job Actions, Trades, Attendance, Marketing, Sunday and Night Baseball, Franchise Values, Expansion and Relocation, Drugs and Violence, Medical and Training issues, Broadcasting and Baseball Print Journalism, and Baseball Fans.

Attention is paid to the Opening Day, Spring Training, All-Star Game, and World Series activities of players and whenever possible references to their fall classic feats are incorporated appropriately into these sections. Additional references to their feats may be found with their individual biographies in Section G.

A. MINORITIES IN BASEBALL

Citations in this part concern the challenges of racism and inequality found by blacks, women, and other minorities throughout pro baseball's history and the manner by which they have been addressed; additionally, they mark the strides made recently by all minorities entering the sport and the newfound pride in those who were not earlier able to participate. Eight parts, some with subsections, are provided, reflecting a large increase over the number provided in the first edition of this work and its two supplements:

- 1) General Works
- 2) African Americans
- 3) Asian Americans
- 4) European Americans
- 5) Hispanic Americans
- 6) Jewish Americans
- 7) Native Americans
- 8) Women in Baseball, the All-American Girls Professional Baseball League, and the Colorado Silver Bullets

B. THE IMAGINATIVE CULTURE OF BASEBALL

The citations in this section concern the baseball-related aspects of several of the humanities — art, literature, film, religion and music. The reader will find articles about the great poems or songs of the game as well as a few citations to works containing examples of paintings or noteworthy aesthetic readings. In addition to citations on music, fiction, films with baseball themes, or art, this section also contains references to articles and other works that detail diamond superstitions, the impact of religion on the game and its players, and the interesting, sometimes unusual nicknames chosen by players, as well as mascots that have amused or irritated fans. Seven parts, some with subsections, are provided, reflecting a large increase over the number provided in the first edition of this work and its two supplements:

1. General Works
2. Art, Including Photography
3. Film

Additionally, a greater number of the more interesting or important adult-oriented baseball novels appear than in the first edition, each with at least a brief annotation. For a more complete listing, see pp. 135–176 of Anton Grobani’s *Guide to Literature* (Detroit: Gale, 1976), where my colleague has provided a helpful checklist with emphasis on earlier titles. Also, readers are encouraged to use Tim Morris’ *Guide to Baseball Fiction*

at 222.uta.edu/English/tim/baseball. Additionally, readers are referred to Andy McCue's 175-page *Baseball By the Books: a History and Complete Bibliography of Baseball Fiction* (Dubuque, IA: William C. Brown, 1990), which covers novels, short story collections, cartoons, and dime novels in 1,300 citations. Additionally, one should note *Spitball: The Baseball Literary Magazine* and *Elysian Fields Quarterly* (formerly the *Minneapolis Review of Baseball*), both of which in their several decades of existence have published hundreds of poems and short works of fiction, far too many to list.

Biographical information concerning individual writers, composers, actors, directors, and artists is also featured among the profiles presented in Section G, Individual Biography.

5415. Chadwick, Lester. *Baseball Joe Series*. 14 vols. New York: Cupples & Leon, 1912–1928. Lester Chadwick was one of many corporate pen names employed by ghostwriters working for the Edward Stratemeyer book packaging syndicate between 1904 and 1984; among the same firm's other series were those featuring Nancy Drew, the Bobbsey Twins, Tom Swift, and the Hardy Boys. The majority of the Chadwick baseball stories were actually penned by Stratemeyer himself and his associate, the New Jersey newspaper reporter Howard R. Garis, who invented Piggy Wiggly. In the novels here reviewed, which were illustrated by such artists as R. Emmett Owen, Walter S. Rogers, and Thelma Gooch, young Joe Matson works his way up from a school boy pitcher through the New York Giants organization by pluck and ingenuity and retires to his Riverside hometown to own and manage a semi-pro team of his own; the titles are entered in order of publication.

C. SPRING TRAINING AND OPENING DAY

Like Opening Day tradition, the rite of spring training in baseball goes back into the nineteenth century. By 2005, it was possible to play ball all year long as many players took advantage of winter ball and other organized games in Puerto Rico, Mexico, and elsewhere in Central and South America. The citations examine the serious and casual aspects of preparation in the spring as well as one of the game's most festive events, Opening Day.

D. ALL-STAR GAMES

In 1933, *Chicago Tribune* sports editor Arch Ward introduced the idea of two teams of picked stars (one from each white major league) playing one another as a World's Fair feature. The idea of the All-Star Game (others had been played under various labels) was born and has continued ever since. From 1933 to 1944, one game was played each year, a routine followed (except for 1945 when no game was allowed) until 1958. Between 1959 and 1962 two games were played, but that concept tended to dilute the spectacle somewhat, and the one annual game schedule again became standard in 1963. Fans initially chose members of the All-Star squads but for a while in the 1960s that honor was passed to players, managers, and coaches. In 1970, Baseball Commissioner Bowie Kuhn returned the selection to the fans. For players not chosen, the All-Star break represents a chance for time off from the hectic 162-game schedule. Statisticians and others often calculate team and player performance in terms of before and after the break, attempting to divine reasons for improvement. African Americans did not play in these All-Star Games until the late 1940s; however, the Negro Leagues did hold a number of these showcase contests, which are noted above among the citations in Section B:2:a:2 Minorities in Baseball: African Americans.

E. CHAMPIONSHIPS

In the first edition, we chose not to separate out from our World Series section the literature concerning postseason league championship contests. To better present material relative to these annual events, we now exhibit our citations in three parts: general works, the American League Championship Series (ALCS) by year, and the National League Championship Series (NLCS) by year.

4. *The World Series*

Although post-season series were played in 1882 and 1884–1891 by the winners of flags in the National League and old American Association, the fall classic we know as *the* World Series dates to 1903, the year "Ban" Johnson's new American League became an equal of the NL No game was

played in 1904, but in 1905 pro baseball's government, the National Commission, made the October extravaganza an annual event. The 1905 game left many traditions, including the idea that World Champions must have won four out of seven contests and that the winners would receive sixty percent of the receipts of the first four games. Decades later, the contest—so important in American life that presidential campaigns did not really begin until its conclusion—went under the lights and with the advent of television coverage became a spectacle now enjoyed around the world.

Again, it must sadly be noted that African Americans did not play in MLB's World Series until the late 1940's; however, the Negro leagues did hold a number of these season-ending contests, which are noted above among the citations in Section B:2:a:2 Minorities in Baseball: African Americans.

The references in this part are divided into two sections. First, general citations, which cover the Fall classic as a whole or dwell on certain aspects of the contests, such as pitching, throughout World Series history. Second, specific citations to the championship series arranged by decade and then, by years within a decade: 1903–1910, 1911–1920, 1921–1930, 1931–1940, 1941–1950, 1951–1960, 1961–1970, 1971–1980, 1981–1990, 1991–2000, 2001–2004.

a. General Works

Interest in the October–November extravaganza called the World Series has been high for a century. Writers good and bad have poured out many hundreds of titles concerning the games, either in overall historical coverage or by attention to specific aspects; such as pitching. The works in this part draw attention to those general titles, some of which reflect sports journalism at its best. A few specific aspects of World Series coverage are omitted here. These include business details and the work of the media, both of which are covered in parts B:2:g and B:2:h, below.

b. *The World Series by Decade and Year*

The literature of individual World Series is quite large. However, it is also true to say that more has been written about some classics than others and in a few cases very little has been penned about the contests of certain years. In order to provide for this unevenness while not simply listing all individual series citations in a long alphabetical file, it was decided to review the entries by decade beginning with 1903–1910, covering the individual years within complete ten year periods, ending with 2004. Information on the winners and losers of each year's contests is provided at the head of each part, together with the number of wins or losses for each team. Feats of individual players are covered here, as well as with their profiles in Section G, Individual Biography, below.

F. NATIONAL BASEBALL HALL OF FAME AND MUSEUM AND OTHER SPORTS MUSEUMS

In 1935, when plans were being laid for the celebration of a baseball centennial in 1939, NL President Ford Frick interested Commissioner K.M. Landis and AL President William Harridge in a museum at Cooperstown, N.Y., home of the game's supposed founder, Abner Doubleday. This tribute would be America's first museum devoted exclusively to a sport. In addition to artifacts, enthusiastic support was given to another Frick suggestion, the creation of a Hall of Fame to honor the game's immortals. Beginning in 1936, honorees have been selected by vote of the Baseball Writers' Association of America. On June 12, 1939, the National Baseball Hall of Fame and Museum was dedicated. On hand for the celebration were Landis, Harridge, Frick, local proponent and first Hall of Fame President Stephen C. Clark, National Association President William G. Bramhan, and 11 of the 25 diamond immortals who had been enshrined to that point. Over the years since, the museum has added hundreds of inductees, thousands of artifacts, and maintained extensive collections of print and archival resources now housed in the National Baseball Library adjoining the main museum complex, itself remodeled in the last two decades. Drawing over half a million visitors a year, this private facility remains the grandfather of all sports museums.

The citations in this section concern the history of the National Baseball Hall of Fame and Museum as well as some of its problems. Some notice is also given to the Little League Hall of Fame and the growing number of diamond shrines

which have been developed in the years since 1939, including a new enterprise honoring the Negro Leagues. In the citations to Hall of Fame players (starred names in Section G: Individual Biography), readers might note that the major part of the player credentials of the honorees have been reprinted with permission from their Cooperstown plaques.

This compiler would add his own boyhood hero, Rocky Colavito.

G. THE BUSINESS AND HEALTH OF PROFESSIONAL BASEBALL

Professional baseball today is a huge entertainment business in which thousands of people in other industries join game attendees in investing and reaping large sums of money. Since the late 19th century, this enterprise has evolved and become more complicated. Player unions, stadium leases, self-policing (drugs for example), concern over such legal matters as antitrust status and franchise relocations are all topics we hear more and

more about in connection with the major leagues, and even minor leagues. In earlier years, writers speculated on trades and managerial firings: today, we also must become acquainted with collective bargaining, the demise of the reserve clause, umpire requirements, drug and alcohol rehabilitation, and strikes. The business angle has pervaded the public arena to a far more noticeable extent in the last half century. Before that, what was controversial was either kept behind closed doors or not appreciated by fans interested only in play and players. Yet controversy has existed over business practices in professional baseball since the beginning, with earlier concerns surrounding such topics as pay games on Sunday, gambling, media involvement, and such technological innovations as night ball in lighted stadiums. Attention to matters of drugs and violence, medical, training, and nutritional issues has also grown.

Eleven parts for this subsection, some with subsections of great specificity, are provided, reflecting a large increase over the number provided in the first edition and its two supplements:

1. General Works, Including Team Ownership and Profits
2. Legal Matters (Law, Legislation, Court Proceedings)
3. Antitrust and Labor Relations/Negotiations/Arbitrations, including Salaries/Contracts/Pensions and the Reserve Clause
4. Unionism and Job Actions
5. Trades and Trading
6. Attendance, Marketing and Promotions
7. Sunday and Night Baseball
8. Franchise Values/Balance, League Expansions/Contractions, and Team Relocations
9. Drugs and Violence
10. Gambling
11. Medical, Conditioning/Physical Training/Fitness, and Nutritional Issues

References to specific owners, executives, physicians, and so forth are entered among the individual biographies in Section.

9. Drugs and Violence

Illegal drug use in pro sports has become a significant difficulty, one from which baseball is not immune. Currently, concern is also focused on performance-enhancing substances. Two battles which seem to be almost won are those against alcohol abuse and the use of chewing tobacco. Conversely, it also appears that fights and violence between players on the field and between players/coaches and fans is on the rise. Given the number of these distasteful practices, it follows that writings about them would be numerous; this part is offered in an effort to control some of the related literature, especially the less technical.

10. Gambling

Gambling is not a new problems for pro baseball; betting has been at the bottom of some of the greatest tragedies in the sport from its beginning through the Pete Rose banishment. References to specific gambling episodes like the Black Sox scandal are handled elsewhere; the citations here cover general references, including guides for participants.

11. Medical, Fitness, and Nutritional Issues

In Babe Ruth's day, little attention was paid by most pro ball players to matters of fitness and nu-

trition, while medical issues were only of concern if they prevented play. For the most part, this attitude has completely changed by the early 2000s. The literature of medical, fitness, and nutritional issues relative to baseball is immense and much of it is technical. What is cited here consists of general titles (including a few on the subjects of athletic training and sports medicine, both worthy of individual bibliographies) together with a few technical examinations of specific problems, e.g., Little League elbow and Tommy John surgery. The most helpful continuing coverage of these topics is presented in the product of the Sport Information Resource Centre, cited in Section A:1, Reference Works: Bibliographies and Indexes, above.

H. BROADCASTING AND BASEBALL PRINT JOURNALISM

Until recently, the history of baseball was recorded not by professional historians, but by hundreds of baseball journalists. The chronicling of this sport began before Civil War and continues with certain technological changes to the present age of the Internet. Along the way, giants (and little folk) of the pen and later radio and television have marked the way: Henry Chadwick, who devised the box score; journalist Ban Johnson, father of the American League; Ford C. Frick, second commissioner of baseball; Ring Lardner, a Voltaire of the '20s; Grantland Rice, the poet of sport; the literary sportswriter Damon Runyon; the detective story author-forecaster Hugh S. Fullerton; Ernie Lanigan, compiler of the first baseball encyclopedia; historian-biographer Frederick G. Lieb; the Spinks, led by John G.T., of that baseball bible *The Sporting News*; F.C. Lane of *Baseball Magazine*; reporter-authors Daniel M. Daniel, Thomas Meany, Frank Graham, Milton Gross, Al Hirshberg, Shirley Povich, Harold Kaese, Lester J. Biederman, Warren Brown, John Drebing, Arthur Daley, Walter ("Red") Smith, Dick Young, Wells Twombly, Jimmy Cannon, long-time *Baseball Digest* editor John Kuenster, and a host of writers whose fame began with *Sport* or *Sports Illustrated*, writers like Howard Cosell, Dick Schaap, Frank Deford, Ron Fimrite, William Leggett, Tom Verducci, and Robert W. Creamer. These are only a few of the many whose print coverage of baseball has enlightened and entertained readers through the years and who, indirectly at least, made possible this compilation. Many of them receive individual profiles and citation listings in Section G, Individual Biography.

In the late 19th century newspapers began to devote separate sections to sports and by 1909, sports photography became an accepted norm in papers and journals. The next great advance took place on August 5, 1921, when Pittsburgh radio station KDKA broadcast the first major league baseball play-by-play. After some initial resistance from owners who feared for their gate receipts, radio became and has remained an important voice for the national pastime. The first U.S. sporting event ever televised was a 1939

Princeton-Columbia baseball game; television network coverage of the World Series began in 1947 and of the All-Star game three years later. Noted broadcasters have included Mel Allen, Red Barber, Jack Brickhouse, Jack Graney, Howard Cosell, Jimmy Dudley, Gordon McLendon, Vin Scully, Ernie Harwell, Bill O'Donnell, Harry Carey, Ted Husing, Rowsy Rowswell, Bob Costas; former players-Hall of Famers Dizzy Dean, Waite Hoyt, Ralph Kiner, Joe Morgan, and Don Drysdale; former players Joe Garigiola, Jim Palmer, Norm Cash, Tim McCarver, and Ronald Reagan. Many of these also are noted in Section G, Individual Biography.

The sources in this section detail the print coverage of broadcasting and baseball journalism since the 19th century. Two major sections are offered: General Works and Specific Media, with the latter further split into coverage of Radio/Television and Print Media (Newspapers, Magazines, Books).

1. *General Works*

Of late, the trade literature has blossomed with attention to the business aspects surrounding network achievement of rights to broadcast professional baseball games and economic gains/losses from such negotiations. There have been histories written on the early radio and television broadcasting of baseball as well as a 100th anniversary celebration for "the Bible of Baseball," *The Sporting News*. In general, the sources in this part detail the print coverage of broadcasting and written baseball journalism since the 19th century.

I. BASEBALL FANS

Those who turn out to watch a game have been, since the beginning, nearly as important to the continued success of the national pastime as the players themselves. Spectators — fans — can increase excitement, or discord, at events from the most important MLB contest to a Saturday afternoon Little League game in Greeneville, TN. Without fans, there would be no professional baseball idols or the big business of pro ball, the popular pastimes of college or semi-pro contests, and the emotion-ringed sport of Little League would certainly wither if not die.

The citations celebrate baseball spectators as a

group, with emphasis on fans at professional games. In addition, we include references to guidebooks and other data to help those watching to better understand the intricacies of the game. Some attention is also paid to Rotisserie leagues and fantasy baseball, including adult baseball camps and vintage baseball reenactments.

Additional information as to attendance, legal issues, fan violence, stadium food and accommodation, and mascots will be found elsewhere in the guide, specifically in Sections B:2:b:7 The Imaginative Culture of Baseball: Nicknames and Mascots; B:2:b:g The Business and Health of Professional Baseball, particularly subsections 6 (Attendance, Marketing and Promotions), 7 (Sunday and Night Baseball), and 9 (Drugs and Violence); and C:4:a The Minor Leagues: General Works.

2. Rotisserie Leagues and Fantasy Baseball, Including Adult Baseball Camps and Vintage Baseball

What is often described as fantasy baseball was only in its infancy when the first edition of this book appeared in 1986. Today, Rotisserie baseball is a thriving enterprise while many dedicated fans are able each year to attend team-sponsored adult baseball camps, while others are able to observe the accurate recreation of vintage nineteenth century contests. The references examine the literature of fantasy baseball; their number, like those for baseball cards in Section A:4:b, will grow significantly in the years ahead.

C. PROFESSIONAL LEAGUES AND TEAMS

The citations in this section concern the professional leagues and teams of organized baseball, with emphasis on those extant since 1900, including organizations of the “minor” variety. Here the user will find information relative to the National Association of Professional Baseball Players, 1857–1870, 1871–1875 (the first professional baseball league); the National League, 1876–; the American Association, 1882–1891; Union Association, 1884; the Brotherhood (Players) League, 1890; the American League, 1900–; United States Baseball League, 1912; the Federal League, 1914–1915; and the Continental League, 1959–1960; which never got off the ground. The order of arrangement is doomed leagues (including their

teams as well as All-Star groupings), the National League, and the American League.

In addition, the majority of this guide’s references to individual NL or AL teams are in this section, arranged in alphabetical order. The minor leagues and teams are covered in three sections, one devoted to general works and the other two to specific leagues and teams. The section is concluded with two parts on stadiums and equipment. Here the reader can find information on, among other topics, new and old ballparks, artificial vs. grass surfaces, lighting, scoreboards, the development of baseballs and gloves, uniform changes, and the romance of the bat.

1. GENERAL WORKS (ALL-STAR TEAMS AND DOOMED LEAGUES)

The citations here are of two distinct types; however, because as a body neither was sufficient in number to justify a separate section, they are placed together. First, references to what might be called “doomed” leagues, those nineteenth and twentieth century professional major leagues which either “died” or never actually began. Two major examples are the Federal League of 1914–1915 and the Continental league idea of the late 1950s. To provide closure, we are also including with these leagues the teams that played for which references have been uncovered.

Entries related to All-Star teams are limited to teams encompassing all positions. All-Star teams

of, say, pitchers are entered in the appropriate section of collective biography in Section F.

3. SPECIFIC CURRENT MAJOR LEAGUES

A. THE NATIONAL LEAGUE, 1876–

As the senior circuit of major league baseball, the National League of Professional Baseball Clubs (usually called just the National League) celebrated its 100th season in 1976, having been founded on February 2, 1876. An offshoot of the old National Association, the new league's first president was Morgan G. Bulkeley of Hartford, Connecticut, a baseball enthusiast who also served his state as governor and senator. The eight charter members of the NL included Boston, Chicago, Cincinnati, Louisville, Hartford, St. Louis, the Athletics of Philadelphia and the Mutuals of New York, the latter two not to be confused with the later New York Giants and

Philadelphia Phillies, which did not join until 1883.

The distinction of playing the first NL game went to the Boston and Philadelphia clubs, since the six other teams did not begin competition until several days thereafter. Boston won 6–5 with Charles Josephs, known as Joe Bolden, the winning pitcher, and Alonza Knight, the loser.

Bulkeley retired as president after one year and was succeeded by William A. Hulbert, president of the Chicago club, who was highly regarded as the strong man in the circuit. Hulbert retained the two posts and administered both with vigor until his death in 1892.

In all, some 31 NL franchises were held during the 25 years through 1905 with the league at one time or another having teams in places like

Worcester, MA; Syracuse, Troy, and Buffalo, NY; Providence, RI; Hartford, Kansas City, Indianapolis, Baltimore, Louisville, Detroit, Cleveland, and Washington, DC. The champion Orioles from Baltimore were one of the most colorful teams in baseball history during their 1894–1896 reign, with stars such as John McGraw, Wee Willie Keeler, Hughie Jennings, Joe Kelley, and Jack Doyle.

The citations in this part are broken down into two main sections. The first provides sources dealing with the NL in general since 1870 and the second provides, in alphabetical order by organization, material on the league's various teams, including those no longer extant. Information should be compared with that in the following section on the American League.

1. General Works

The citations concern the National League of Professional Baseball Clubs in general since the 1870s. In addition to history and administration, readers will also find information concerning specific teams, although the viewing of individual entries is necessary to determine just which ones. Additional general information on the NL will be found throughout the team histories.

2. Specific Teams, Arranged Alphabetically

For the better part of five decades following 1900, the National League of Professional Baseball Clubs was made up of eight teams: the Boston Braves, Brooklyn Dodgers, Chicago Cubs, Cincinnati Reds, New York Giants, Philadelphia Phillies, Pittsburgh Pirates, and St. Louis Cardi-

nals. Then, in the 1950s and thereafter, several teams moved to new cities and additional teams were added to the league. The Boston Braves traveled to Milwaukee and then to Atlanta, while the Brooklyn Dodgers moved to Los Angeles and the New York Giants to San Francisco. Newly created franchises included the Houston Colt .45's re-named Astros, the Montreal Expos, the New York Mets, the San Diego Padres, the Colorado Rockies, the Arizona Diamondbacks, and the Florida Marlins. In 1969, the single grouping was re-arranged into two six-team divisions (East and West); in 1993, a Central Division was created to join the other two.

As each of the teams since 1876 have generated and continue to generate references under the name of the state or city occupied, the references are entered alphabetically under each.
