B. THE AMERICAN LEAGUE, 1901–

Twenty-five years after the formation of the National League, a second cornerstone was laid in the structure of major league baseball when the American League of Professional Baseball Clubs (called usually just the American League) was founded. Where as the senior circuit’s earlier rivals such as the American Association and the Players (Brotherhood) League had failed, the AL became a strong and healthy counterpart of the older circuit.

The new league was born in January 1900, but it did not attain major league status until a year later and was unable to overcome the powerful opposition of the NL until the winter of 1902. The prime movers in this new enterprise were Byron Bancroft (“Ban”) Johnson, a former Cincinnati newspaperman, and Charles A. Comiskey, former player, manager, and club owner. The AL began as an expansion of the old Western League and its swift rise was due chiefly to the efforts of Johnson, who raided the NL for many of its stars, such as Napoleon LaJoie, Ed Delahanty, Cy Young, Wee Willie Keeler, Jimmy Collins, Sam Crawford, and Jack Chesbro. As president and powerful force in the league, Ban Johnson was the guide for the AL’s initial growth and for its eventual destiny.

The league’s first franchise cities included Detroit, Buffalo, Philadelphia, Minneapolis, Indianapolis, Milwaukee, Cleveland, and Kansas City. In 1901, Boston, Chicago, Baltimore, and Washington moved in to replace Indianapolis, Minneapolis, Kansas City, and Buffalo. In 1902, St. Louis took the place of Milwaukee, and in 1903, Baltimore retired in favor of New York.

“Peace” was declared between the NL and the AL when the latter was granted all rights and privileges of the senior circuit. A national agreement was adopted that year and a national commission

formed, comprised of league presidents Johnson of the AL and Harry C. Pullman of the NL with August Herrmann, owner of the Cincinnati Reds. This board remained a ruling body until February 1920 when it was dissolved and federal Judge Kenesaw Mountain Landis, the elected commissioner, became the supreme authority of baseball. Also in 1903, the first World Series was held when Harry Killilea's AL champion Boston club defeated Barney Dreyfus' Pittsburgh flag winners 5 games to 3.

Teams through 2004 have included: Anaheim Angels (1997–); Baltimore Orioles (1901–1902, 1954–); Boston Americans (1901); Boston Pilgrims (1903–1906); Boston Red Sox (1907–); Boston Somersets (1902); Buffalo Bisons (1900); California Angels (1965–1996); Chicago White Sox (1904–); Chicago White Stockings (1900–1902); Cleveland Bluebirds (1901); Cleveland Broncos (1902); Cleveland Indians (1915–); Cleveland Naps (1903–1914); Cleveland Lake Shores (1900); Detroit Tigers (1900–); Indianapolis Hoosiers (1900); Kansas City Athletics (1955–1967); Kansas City Blues (1900); Kansas City Royals (1969–); Los Angeles Angels (1961–1964); Milwaukee Brewers (1900–1901, 1970–1997); Minneapolis Millers (1900); Minnesota Twins (1961–); New York Highlanders (1903–1912); New York Yankees (1913–); Oakland Athletics (1968–); Philadelphia Athletics (1901–1954); Seattle Mariners (1977–); Seattle Pilots (1969); St. Louis Browns (1902–1903); Tampa Bay Devil Rays (1998–); Texas Rangers (1972–); Toronto Blue Jays (1977–); Washington Senators (1901–1971).

The citations in this part are broken into two main sections. The first provides sources dealing with the AL in general since 1901 and the second gives, in alphabetical order by organization, material on the league's various teams, including those no longer extant. Information should be compared with that in the previous section on the National League.

1. General Works

The citations listed concern the American League of Professional Baseball Clubs in general since 1901. In addition to history and administration, readers will also find information concerning specific teams, although a reading of the in-

dividual entries is necessary to determine just which ones.

2. Specific Teams, Arranged Alphabetically

For the better part of five decades following 1900, the American League of Professional Base-

ball Clubs was made up of eight teams: the Boston Red Sox, Chicago White Sox, Cleveland Indians, Detroit Tigers, New York Yankees, Philadelphia Athletics, St. Louis Browns, and Washington Senators. Then, in the 1950s and thereafter, several teams moved to new cities and additional teams were added to the league. The St. Louis Browns traveled to Baltimore, while the Philadelphia Athletics moved to Kansas City then to Oakland and the Washington Senators departed to Minnesota. Newly created franchises included the Los Angeles Angels, later transformed into the California Angels and the Anaheim Angels; the Seattle Pilots renamed Mariners, the Kansas City Royals, the Texas Rangers, the Toronto Blue Jays, and the Tampa Bay Devil Rays. In 1969, the single grouping was rearranged into two six-team divisions (East and West); in 1993, a Central Division was created to join the other two.

As each of the teams since 1900 has generated and continue to generate references under the name of the state or city occupied, the references are entered alphabetically under each.

4. THE MINOR LEAGUES

As was the case with the major leagues in the previous part, our discussion of the minor leagues is broken down into subparts. The first considers the entire minor league system and lifestyle as a whole while the second provides citations to individual leagues of the present and past and the third to teams.

A. GENERAL WORKS

The citations here consider the minor leagues in part or in whole, including the difficulties of players, the quality of play, and the early debate on the farm system as it came to be maintained by major league clubs.

B. SPECIFIC LEAGUES, ARRANGED ALPHABETICALLY

Meeting in New York in 1901, members of the new National Association of Professional Baseball Leagues voted to group their leagues by letter grade according to the population of the cities they represented. Four classes were devised — A, B, C, D — with financial arrangements for membership and salaries based upon the class into which a league was placed. In 1946, the initial system was revised and more classes and additional bookkeeping details and rules were agreed upon. These new leagues would have the designation AAA, AA, A, B, C, D, and Open (reserved for areas with an aggregate population of ten million). Hoping for major league status, the Pacific Coast League and the Mexican League eventually gained Open status, only to relinquish it later. Minor league baseball entered a period of stagnation during the 1950s and was eventually revitalized under a new system which dropped the earlier B, C, and D classification system in favor of three classes, AAA, AA, and Rookie A. Today, minor leagues thrive and, in some ways, are more popular with the public than "the bigs."

The references provide information on specific minor leagues, current and defunct.

C. SPECIFIC TEAMS, ARRANGED ALPHABETICALLY

Although writings on individual teams has increased significantly of late, much of the information on large numbers of these entities continues to come from the ball clubs themselves. Many of these offer annuals, media guides, or other publications, which they also report into the Online Computer Librarian Center database (www.oclc.org), from which some of our information comes.

5. STADIUMS AND EQUIPMENT

The "hardware" of baseball, those facilities and equipments necessary for the game, are considered in two parts. The first examines the literature on baseball parks, fields, or stadiums and is divided into two subparts: general works and specific stadiums, arranged alphabetically. The second part also commences with general citations and it, too, is then divided into specific equipment, e.g., baseballs, gloves, bats, etc.

A. STADIUMS AND BALLPARKS

1. General Works, Including Financing/Management

Ballparks, stadiums, and facilities of whatever level are considered in general. Special attention is also paid to the political, financing, and management aspects of park construction as well as concessions and safety and such special features of stadium equipment as lighting and playing surface (e.g., grass vs. artificial surface), organs, and PA systems. Citations to specific stadiums are arranged alphabetically in C:5:a:2. For additional information on political, financial, and other issues, including safety and health, revolving around baseball stadiums, users might also profitably review the citations provided in Section B:2:g, The Business and Health of Professional Baseball.

B. EQUIPMENT

The works in this section concern equipment and clothing employed by players on the field.

One of the greatest controversies surrounding equipment over the decades has been the construction of the baseball itself. Today, the sphere is the subject of rigid regulation that demands this makeup: a rubber core surrounded by wound yarn and covered by two stripes of appropriately stitched white horsehide, the whole weighing no more than 5¼ nor less than 5 ounces with a total circumference of no more than 9¼ nor less than 9 inches.

In 1984, the famous "Louisville Slugger" baseball bat celebrated its one hundredth birthday. Today's offensive game weapon is a smooth round stick which, by MLB regulation, can be no longer than 42 inches with a diameter of no more than 2¼ inches. Some experimentation has been carried out with aluminum bats at the college and youth league levels; however, the instrument most commonly employed by the majority of players is still made of wood, usually ash.

Earlier fielders did not wear gloves, but for protection, sometimes wove cloth around their hands. As can be seen in an interesting display at the National Baseball Hall of Fame and Museum, the glove has evolved into a purposeful finger

glove of some size and padding. Mitts for first basemen are usually smaller than those used by other fielders while the catchers' mitts are more circular with extra padding. Incidentally, catchers wear various protective gear including shin guards and (along with umpires) chest protectors and wire facemasks, or newer helmets.

From Little League to the majors, playing personnel wear specific uniforms, often identical in base color, style, and trim. Each team's logo or some variation of it is displayed, and trim may include names and numbers. Today's uniforms are seldom the drab, heavy-clothed models of yesterday; most are made of synthetic fiber and some, such as those worn by the Oakland A's, are very colorful. It is now mandatory to wear a batting helmet for protection when at the plate.

Following a selection of general works, specific types are considered: the Baseball; the Baseball Bat; the Baseball Cap; the Baseball Glove; Baseball Protective Equipment; and the Baseball Uniform.

1. General Works

Citations here consider the various equipment employed on the field as a whole, together with certain scientific principles involved in its use; references to specific equipment types will follow below.

D. YOUTH LEAGUE, COLLEGE, FOREIGN, AND AMATEUR/SEMI-PRO BASEBALL

The citations in this section concern the worlds of the nonprofessional players, teams, and organizations in the United States and both amateur and professional baseball overseas.

Four parts, some with subsections, are provided, reflecting a large increase over the number provided in the first edition of this work and its two supplements:

1. High School and College Baseball
2. Youth Leagues, Amateur, and Semi-Pro Baseball
 - a. General Works
 - b. Organized Youth Leagues (Little League, Babe Ruth, American Legion)
 - c. Senior Professional Baseball League
 - d. T-ball
3. Foreign Baseball
 - a. General Works, Including Baseball Diplomacy/Exhibition Games
 - b. Olympic and International Championship Baseball

- c. Baseball in Asia: Australia, Taiwan, and Japan
- d. Baseball in Canada
- e. Baseball in Europe
- f. Baseball in Latin America
4. Scouts/Scouting and Career Opportunities, Agents and Player Drafts/Bonuses/Free Agents
 - a. Scouts, Scouting and Career Opportunities
 - b. Agents, Player Drafts, Bonuses and Free Agents

References to various players (amateur or non-U.S.), coaches, and promoters are also provided in Section G, Individual Biography, while titles reviewing the work of minorities, particularly women, are also included in Section B:2:a, General Works, History, and Special Studies: Minorities in Baseball.

1. HIGH SCHOOL AND COLLEGE BASEBALL

In an arrangement departure from the 1986 first edition, we have moved references to scholastic baseball here, combining them with citations to the college game. The college game continues to enjoy increasing popularity, with many of its games now being televised to national audiences.

College and University Baseball Information. Even the smallest colleges include baseball coverage in their yearbooks and sometimes in the histories of their institutions. For additional information, contact the librarians or yearbook editors of the schools in which you have an inter-

est. Many larger colleges and universities have sports information centers or directors, many of which issue spring press guides, record books, etc., containing baseball data. For copies or information, contact the Sports Information Officer of the college or university of your choice. An example of the sort of publication available is: *West Virginia Baseball*. Morgantown, WV: Sports Information Office, West Virginia University, 1959-. For additional information, visit your preferred college's website.

18619. Abbott, Cindy L. "The Relationship Between Sport Commitment, Sport Salience, and Choice Behavior in Division I College Baseball Players." Unpublished M.A. Thesis, California State University at Fullerton, 1996. 72p. Revised and published in the *International Journal of Sport Psychology*, XXX (July-September 1999); 369-380.

18620. Ackerley, W. Edward. "A History of Early Knox College Baseball from the 1830's to 1900 and an Examination of its Corresponding Reflection of Knox College's Worldly Transformation." Unpublished BA thesis, Knox College-Illinois, 1998. 128p.

18621. Adams, Franklyn. "The Collegian Clicks." *Baseball Magazine*, XLVII (August 1931), 411-413.

18622. Addington, L. H. "Making the Grades." *Baseball Magazine*, LXXII (March 1944), 353-354. High school baseball.

18623a. Adler, Rich. *Baseball at the University of Michigan*. Images of Baseball Series. Columbia, SC: Arcadia Publishing, 2004. 128p.

18623. American Association of College Baseball Coaches. *The Best from Collegiate Baseball*. Champagne, IL, 1972. Booklet of article reprints from *Collegiate Baseball*.

18624. *American Collegiate Baseball Association Guide*. Boston, MA: Wright and Ditson, 1884-1885. Rules, teams, rosters, etc.

18625. *Amherst Alumni News*, Editors of. "When Ball Players First Went to College." *Baseball Digest*, XVIII (August 1959), 63-67.

18626. Anderson, Bruce. "Brigham Young, Brigham Old." *Sports Illustrated*, LVIII (May 30, 1983), 64+. Success of the baseball program at BYU.

18627. _____. "Somebody Up There Liked Him': Cal-State Fullerton Won the N.C.A.A. Championship Behind [Pitcher] Eddie Delzer." *Sports Illustrated*, LX (June 18, 1984), 50-51.

18628. _____. "This Battery is the Best." *Sports Illustrated*, IX (May 21, 1984), 62-63. North Carolina Tarheels baseball team.

18629. Anderson, Dave. "All-Time College All-Stars." *The Baseball Research Journal*, XII (1983), 86-89.

18630. Apple, Kathy Sue Boone. "The Antecedents and Consequences of Multi-Dimensional Cohesion Throughout an Intercollegiate Baseball Season." Unpublished MS thesis, Purdue University, 1993. 173p.

18631. Arbolino, Jim. "Lyle Olsen, Coach and Teacher: The Mantle Fits." *College Board Review*, CXIV (Winter 1979-1980), 2-9. College baseball coaching activities of a former Dodger player.

College and University Conference Information. Many of the college and university athletic conferences to which various institutions belong also publish record books and press guides. The major ones include the N.A.I.A. and the NCAA. For additional information, visit the conference.

The Easton, PA-based National High School Baseball Coaches Association is a major body and its website <www.nhsca.com> provides much information on scholastic diamond activities.

18632. Baker, Scott. "The Four As in Recruiting College Baseball." *Coach & Athletic Director*, LXV (May-June 1996), 90+.

18633. Balzwedel, David. "Enhancing the Image of Interscholastic Baseball." *National Federation News*, II (June 1985), 14-15.

18634. "Baseball." *Harvard Graduate Magazine*, XVI (September 1907), 120-123. Harvard vs. Yale.

18635. *Baseball Case Book*. Kansas City, MO: National Federation of State High School Athletic Associations, 1953-. Booklets concerning rule interpretations.

18636. *Baseball Rules*. Kansas City, MO: National Federation of State High School Athletic Associations, 1945-. Codified rules with interpretations.

2. YOUTH LEAGUES, AMATEUR, AND SEMI-PRO BASEBALL

Many thousands of young people, boys and girls, play baseball outside of the college ranks covered in the previous part. In addition to high school, the game is played for fun (and sometimes prizes) in amateur and semiprofessional ("semi-pro") leagues. Founded in 1935, the National Baseball Congress sponsors a national championship in Kansas each summer, with thousands of teams in hundreds of leagues engaging in state, district, or regional tournaments for the chance to qualify and share in pride money. Industrial concerns and independent promoters sponsor many of these teams or leagues.

Perhaps the baseball with which most people are familiar on a personal basis is that played by sons and daughters in their younger years. Leagues are sponsored by the Colt League, Veterans of Foreign Wars, American Legion, Babe Ruth League, the National Amateur Baseball Federation, Pony League, and most familiarly, Little League Baseball, Inc. World Series are usually held each year by these leagues, and the teams are usually backed by local retailers or businesses. T-ball is available for even younger players, while BEEP and Challenger baseball is aimed at those physically unable to participate on other diamonds.

The sources in this section address all noncollegiate amateur baseball. Following a part on general works, organized youth leagues (Little League, Babe Ruth, American Legion) are covered, along with the Senior Professional Baseball League and T-ball. Many works of value for parents and coaches are entered in addition to general or historical studies. A number of community baseball histories are entered in Part B:l:a General Works and Histories; however, students of amateur ball may also profit from the instructional citations in Part E: Baseball Rules and Techniques.

4. SCOUTS/SCOUTING AND CAREER OPPORTUNITIES, AGENTS, AND PLAYER DRAFTS/BONUSES/FREE AGENTS

A. SCOUTS, SCOUTING AND CAREER OPPORTUNITIES

The process of choosing those best fitted to play major league baseball is similar to that for other professional sports. Experts, often former players, watch the performance of young men on the field, sometimes at amateur or collegiate contests and sometimes at camps or tryouts. For a while, promising prospects were offered high bonuses to

sign with a given club, an expensive arrangement for teams when "bonus babies" failed. Occasionally, scouts from one team may not find an individual satisfactory while those from another do. Once drafted and signed by a professional club on the advice of a scout, the lucky youngsters are usually sent to a minor league team where they receive excellent instruction and the opportunity to rise through the system while making the most of their baseball talents. Users should note that

references to various agents and scouts are also included in Section G, Individual Biography.

B. AGENTS, PLAYER DRAFTS, BONUSSES, AND FREE AGENTS

Following a period of outrageous bonuses paid to prospects, MLB has since come to rely far more on the draft system as employed by the NFL and other sports. Players now often find themselves free agents able to negotiate their own salaries, often with the help of professional sports agents.

E. BASEBALL RULES AND TECHNIQUES

This chapter might be labeled as our section on instruction. In addition to an initial part on rules and regulations, citations are provided on the actions involved in coaching, managing, and officiating; the various strategies (offensive and defensive) of the game; general works on techniques; and studies of such specific actions as baserunning, catching, fielding, hitting, and pitching. Titles written by or ghostwritten for well-known participants (e.g., pitcher Warren Spahn) are listed with that participant's individual biography in Section G: Individual Biography. The four specific subsections, two of which are further split, here offered are:

1. Rules and Regulations
2. Coaching and Managing, Signs, Officiating
 - a. Coaching and Managing
 - b. Signs
 - c. Officiating
3. General Studies of Technique and Baseball Science
4. Specific Techniques
 - a. Baserunning
 - b. Catching
 - c. Fielding
 - d. Hitting
 - e. Pitching

1. RULES AND REGULATIONS

When the Knickerbocker Baseball Club of New York was organized on September 13, 1845, one of its first orders of business was the appointment of a committee chaired by surveyor Alexander Cartwright. This committee was to devise some standard rules for the game. Cartwright and his associates presented the club, early in 1846, with a diagram calling for specific playing distances around a diamond and a set of regulations in 14 sections. Once the committee's work was agreed to, it remained only for the Knickerbockers and a rival group, the New York Nine, to assemble on Elysian Fields at Hoboken, N.J., on June 19, 1846, and play the first real ball game under organized rules (the New York Nine won 23–1 in four innings).

The baseball rules adopted by the Knickerbockers were very basic; indeed, they could all be easily printed in a space the size of this page. Some

of their provisions remain in the game today (e.g., "Section 10-Three hands [players] out, all out"). By the 1990's, the rules and regulations governing the sport had grown on all levels from amateur to professional, with each league adding refinements or rule changes almost every year, especially in the major leagues. From the 1845 Knickerbocker handbill size, codes of baseball rules have now become large enough to fill good-sized pamphlets.

In addition to league rules committees, those faced with interpreting the regulations and the umpires in actual control of games must be aware of all sorts of conceivable events, which might happen in play. These so-called "knotty problems" have been the subject of many studies for decades. This section examines the literature of baseball rules and regulations, which is actually more extensive than one might at first imagine.

Covered here is the literature surrounding baseball's laws (rules and regulations). Users should note that additional overviews will be found in Chapter B:1:a (General Works and Histories) above and in this chapter's subpart 3 (General Studies of Technique, Strategy, and Baseball Science) below.

2. COACHING AND MANAGING, SIGNS, OFFICIATING

If the objective of a baseball game is to score more runs than the other team, the strategy is one of both offense (ways in which your team can score) and defense (ways in which your team can prevent the other side from scoring). Offensive strategy features such components as the bunt, the hit and run play, base stealing, and working the opposing pitcher for walks. Elements of defensive strategy may include the way certain fielders are “shifted” or positioned, the kinds of pitches thrown, and the introduction of relief pitching. Of course, the strategy of baseball is complicated, that employed in any given game, amateur or professional, may well depend on the wisdom available to managers and coaches and the maturity of the players.

The strategy followed by each team during a game is determined on the professional level by a manager, with the help of his assistants, called coaches. On the college and amateur levels, coach or head coach is the term applied to the individual responsible for strategy and he (or she) may or may not have help from assistant coaches. It is the responsibility of the manager/coach to decide, among other things, which players take the field, the order in which they bat, substitutions, appeals, attempted advance by baserunners, bunts and hit and-run plays, where fielders should be stationed, and sometimes what pitches the pitcher should hurl. Manager/coaches are also in charge of setting team practice and conduct rules and of managing team morale.

In strategy matters, managers or coaches often listen to the advice of their assistants. Major league teams employ special coaches to advise players in pitching and hitting as well as baserunning, the latter from positions in specified boxes near first and third base. In amateur circles, assistant coaches may provide advice and instruc-

tion; many work the first and third coaches boxes as well.

The game at an levels is supervised by umpires who are required to make certain that play is held according to league rules. In general, umpire decisions are final, although some decisions are rendered under appeal and on rare occasion are actually reversed. Major and minor league umpires work under appointment of league presidents, usually after seasoning in junior circuits. The umpire working behind the plate is usually designated the chief umpire for that game. For special events such as the All-Star Game and the World Series, umpires are appointed by the commissioner of, baseball. Similar requirements are in place for umpires in lesser and amateur leagues. The best umpires are agile, keen-eyed, and deeply knowledgeable about the rules.

Communications on the field often take the form of physical movements called signs. These signs can be as simple as one finger held down by a catcher to indicate a pitcher should throw a fastball to complicated gyrations by a third base coach to set up specific defenses for infielders. Occasionally, one team will “steal” the signs of its opposition and gain advantage. To guard against this, elaborate methods of false signs are employed to mask the content of real ones.

The sources in this section consider the techniques involved in managing, coaching, and officiating, as well as the intricacies of signs and game strategy.

References to various managers, coaches, and umpires will be found in both Section F, Collective Biography, and Section G, Individual Biography, below.

3. GENERAL STUDIES OF TECHNIQUE AND BASEBALL SCIENCE

Drawing together into one location these general studies of baseball technique is the purpose of this subpart. While the specific techniques of baserunning, catching, fielding, hitting, and pitching are covered below, here readers will find sources which combine information on those techniques into single works. Additionally, references to baseball strategy and winning are also located here; although, readers should note that certain of the works in subpart E:2:a ("Coaching and Managing") above also are relevant.

21236. Allen, Ethan N. *Baseball: Major League Technique and Tactics*. Rev. ed. New York: Macmillan, 1954. 320p. Interprets major league activity; first published in 1938 as *Major League Baseball: Techniques and Tactics* (qv.).
21237. _____. *Baseball, Play and Strategy*. 3rd ed. Malabar, FL: R.E. Krieger Publishing Co., 1982. 449p. Illustrated with over 500 photos and diagrams on every aspect of team and individual play.
21238. _____. *Baseball Techniques Illustrated*. New York: A.S. Barnes, 1951. 96p. Text and diagrams (by Tyler Micoletau) covering the basics of play.
21239. _____. "Checklist of Offensive Baseball Skills." *Scholastic Coach*, XXVII (February 1958), 16–19.
21240. _____. *Major League Baseball Techniques and Tactics*. New York: Macmillan, 1938. 253p. Following a 12-year outfield career (1926–1938) with the NL's Reds, Giants, Cardinals, Cubs, and Phillies, Allen retired to write this famous instructional guide and other useful books and articles which have endeared him to amateur and professional baseball coaches.
21241. _____. *Winning Baseball*. New York: McGraw-Hill, 1942. 64p. Consists of action photos of then-leading players demonstrating their techniques.
21242. Alston, Walter, and Donald C. Weiskopf. *The Baseball Handbook: Strategies and Techniques for Winning*. Rev. ed. Newton, MA: Allyn and Bacon, 1984. 495p. Revised and abridged edition of the next citation.
21243. _____. *The Complete Baseball Handbook*. Newton, MA: Allyn and Bacon, 1972. 567p. Baseball strategy, techniques, and lore by the then current Dodger manager and a noted college coach.
21244. _____. *The Complete Baseball Handbook: Strategies and Techniques for Winning*. 2nd. ed. Dubuque, IA: Championship Books, 1990. 530p.
21245. Anderson, Clary. *Make the team in Baseball*. Rev. ed. New York: Grosset and Dunlap, 1960. 130p. Step-by-step drawings and action photos illustrating technique.
21246. Andriesen, David. "During a Game, First Base is Social Hub for Major Leaguers." *Baseball Digest*, LXI (September 2002), 56–58. Greetings on the field.
21247. Angell, Roger. "Put Me In, Coach." *The New*

Yorker, LIX (May 3, 1993), 47–56+. On the decline in desire and skills in the modern game.

21248. Athletic Institute. *Baseball*. Chicago, IL: Athletic Institute, 1973. 106p. Beginners guide to tactics, hitting, running, and play by position.

21249. Ault, A. B. "Pitching, Defense Just Slightly More Important to Team Wins Than Offense." *The Baseball Research Journal*, XIII (1984), 50–54.

21250. Baker, Dirk. *Baseball Drills for Young People: Over 150 Games and Activities*. Jefferson, NC: McFarland & Co., Inc., 2002. 164p.

21251. Bartlett, S. "Practice, Attitude, and Never Say Die." *Athletic Journal*, LXVI (February 1986), 16–17, 62.

21252. Bauer, Hank. *Championship Baseball*. Garden City, NY: Doubleday, 1968. 119p. Play by position by a noted former pro player and manager.

21253. _____. "Teamwork is the Name of the Game." In: Fred Down, ed. *Sports All-Stars 1967 Baseball*. New York: Maco Publishing Co., 1967. Pp. 38–41.

21253a. Bennett, Bob. *The Baseball Drill Book*. Champaign, IL: Human Kinetics, 2003. 320p.

21254. Berry, Elmer. *Baseball Notes for Coaches and Players*. Springfield, MA: American Physical Education Association, 1916. 98p. Most of alternate pages blank, so book only roughly 48 pages in length; the second, full, edition was published in 85 pages by the New York firm of A.S. Barnes in 1922. .

21255. Bethel, Dell. *The Complete Book of Baseball Instruction*. Chicago, IL: Contemporary Books, 1978. 289p.

21256. _____. *Inside Baseball: Tips and Techniques for Coaches and Players*. Chicago, IL: Reilly and Lee; distr. by Regnery, 1969. 97p. Each chapter covers a skill or position; helpful for Little League and other amateur players.

21257. _____. *Big League Secrets*. Philadelphia, PA: Phillies, Cigars; Bayuk Cigars, Inc., 1959. Booklet of tips from players Sievers, Ashburn, Maglie, Crandall, and McDougal reprinted from a series in *Sports Illustrated*.

21258. Bonner, Mary G. *How to Play Baseball*. New York: Alfred A. Knopf, 1955. 111p. Designed for students in grades 3–7.

21259. Bosetti, Rick. *Rick Bosetti's Baseball Book: How to Play and Win*. Toronto, Ont.: Personal Library Publications, 1980. 96p.

21260. Boudreau, Lou. "Tips for Budding Ball Players." *Baseball Digest*, XXVIII (July–December 1969), 64–67, 89+, 82–85, 89–92, 89–92, 94+; XXIX (January–December 1970), 95+, 86–90, 87–90, 101+, 67–70, 79–80, 83–85, 80–82, 74–76, 91–93, 92–94, 93–95; XXX (January–December 1971), 92–94, 80–82, 88–90, 88–90, 86–88, 74–77, 88–89, 94–96, 85–87, 96–97, 97–98, 94–95; XXXI (January–December 1971), 97–99, 80–82, 86–89, 80–82, 73–75, 85–87, 85–86, 90–93, 77–78, 83–85, 96–97, 94–95; XXXII (January–December 1973), 82–84, 64–66, 74–78, 81–82, 79–81, 89–92, 91–92, 83–84, 87–89, 79–80, 93–96, 95–97; XXXIII (February, March, May, July–December 1974), 89–91, 71–73, 78–80, 88–90, 86–90, 84–86, 84–86, 94–97, 98–100; XXXIV (January–December 1975), 96–98, 90–91, 94–96, 94–95, 78–79, 84–85, 90–93, 82–83, 86–89, 84–85, 94–96, 96–98; XXXV (January–December 1976), 84–85, 95–97, 84–87, 91–93, 124–125, 72–74, 80–82, 83–85, 94–96, 96–98; XXXVI (January–June 1977), 94–96, 88–90, 96–98, 62–65, 74–77. Advice by a noted player-manager which, if reprinted in a booklet, would still make an excellent instructional.

21261. British Baseball Federation. *Baseball and Softball*. London, England: A & C Black, 1990. 32p.

21262. Brosnan, Jim, and Ted Williams. "Agony of a Laughter and Advice for Mickey." *Life*, XLIX (October 17, 1960), 98–100.

4. SPECIFIC TECHNIQUES

Many separate titles have been prepared on the individual techniques of baseball. These are located in the subsections below: Baserunning; Catching; Fielding; Hitting; and Pitching. Many of these techniques are also covered within the general titles in subpart E:3, noted just above. Instructionals prepared by (or ghost written for) specific players or managers, e.g., George Herman ("Babe") Ruth, are included with their profiles in Section G, Individual Biography, below.

A. BASERUNNING

Much of baseball's strategy and execution revolves around the "running game," i.e. those, tactics and techniques employed by men on base to advance and perhaps to score. Base-running skills are an important component of a team's offensive capability with some teams and many players known more for their running abilities than their hitting power. Among the most exciting elements of the game is the stolen base, that technique whereby a runner may (if not caught by the defense) advance to the next base while the pitcher is hurling to the batter. Base-stealing involves some risk, as the thief, if caught, is out. Other components of the running game, such as the bunt, sacrifice fly, and hit-and-run play, are tied by pre-arrangement to the batter and are usually undertaken by direction from the manager. (These hitting components are covered in "Hitting.") The art of moving runners around the bases by means of these baserunning techniques is called "inside baseball" and was especially popular in the period before the advent of home run hitting. Great baserunners and thieves have existed in every era of baseball; such men have included Ty Cobb, Lou Brock, and Rickey Henderson.

The references in this section provide information on baserunning in description and specific "how-to" instruction.

B. CATCHING

The baseball catcher forms a key element in a team's offense and defense. Working behind the plate when a team is in the field, it is he who receives the pitches from the mound (often as the result of his suggestions to the pitcher as to which type of pitch should be thrown), is responsible for defensive play around the plate (catching pop-ups, blocking wild pitches, tagging players attempting to score from third) and in assisting fielders to halt baserunners attempting to steal. Offensively, catchers have often been key hitters; stars such as Johnny Bench, Yogi Berra, Carlton Fisk, Thurmon Munson, et al. have provided exceptional power.

The sources in this part describe the various responsibilities of the catcher and provide instruction, often with illustration, on the defensive techniques one should attempt to master.

C. FIELDING

All of the members of the baseball team on the defense in the field are said to be fielders, including the pitcher, catcher, infielders (first, second, third basemen and shortstop), and outfielders (right, center, and left). It is the responsibility of this defense to halt the offense of an opposing team, whether that offense is generated by baserunning or by hit balls. Fielders must be able to judge the flight of a hit ball and catch it quickly. Skilled infielders "charge" ground balls hit in their direction, bend and scoop them into the glove, and throw to the appropriate infielders guarding the various bases towards which runners are advancing. The decision as to which base to throw to when several runners are afoot can sometimes lead to difficult decisions and questionable plays. Outfielders must also catch fly balls (those landing on the ground in front or behind them are usually hits) and return them quickly to the infield, either directly to an infielder covering a base towards which an opposition runner is headed or, more commonly, to a "cut-off" man who will, in turn, relay the outfielder's throw. Good outfielders can get a "jump" on the ball by knowing in which direction the batter usually hits and moving that way at the crack of the bat. Baserunners "leading" off a base may be called out if a ball thrown from one defending player (e.g., the pitcher) reaches another player defending a base (e.g., the first baseman) before the runner can return. Both infielders and outfielders may, unhappily in every case, contribute to an opposing team's advantage by committing an error, that term assigned to a mishandled ball which if caught or held on to might have resulted in an out.

The sources in this section describe the various fielding plays and the techniques necessary to insure defensive success everywhere on the diamond.

D. HITTING

The sources in this section concern hitting. They describe methods of batting and provide, often with illustrations, examples of what makes a good hitter and how to obtain different kinds of hits, from the bunt to the homer. The study of these items will give the inexperienced some idea of how to improve or gain technique and, as many contain interesting anecdotes, time spent with them will not be wasted.

E. PITCHING

If the batter is the key to a team's offense, then it might be said that the pitcher is the key to its defense. A team's ability to score often depends on the ability of its hitters to connect with the balls being thrown in by the opposition's pitcher. It follows that, if a pitcher performs well, the team at bat will achieve few hits and possibly no score (runs). If a pitcher retires all of the batters who face him in nine innings without giving up a hit, he has thrown a "no-hitter." If he retires all of the hitters without allowing any to reach base by walk or error, he has thrown that baseball rarity, a "perfect game." The most famous perfect game was hurled by Yankee pitcher Don Larsen in the 1956 World Series; the 17th and latest was thrown by Randy Johnson on May 18, 2004.

The sources in this section concern pitching. They describe methods of throwing the ball and provide, often with illustrations, examples of what makes a good pitcher and how to hurl some of the different kinds of pitches mentioned above. The pick-off play, whereby the pitcher attempts to catch a runner off base and get him out by tossing the ball to a fielder at a bag or for a tag, is also described. Study of these items may give the experienced food for thought and the inexperienced some idea of how to gain technique. As many contain interesting anecdotes, time spent with them will not be wasted.

F. COLLECTIVE BIOGRAPHY

An interesting way to look at baseball, particularly for younger readers, is through the biography of its major league participants, players, managers, umpires, executives, coaches, officials, and journalists. The citations in this section are to general biographies (about two or more Individuals). The section following this one, G. Individuals, by far the largest, is arranged alphabetically by the last name of the biography. It should be noted that additional biographical information is available in almost all of the preceding five sections.

Chapter F is divided into nine parts. First, general biographies, which cover a variety of individuals. Then come sources on first year players or rookies while the third part is devoted to pitchers. Part 4 which follows is devoted to catchers, Part 5 to both hitters and fielders, Part 7 to team owners and executives (of both teams and leagues), Part 8, to umpires, and Part 9, baseball writers and broadcasters.

1. GENERAL BIOGRAPHIES

23511. Aaseng, Nathan. *African-American Athletes. A-Z of African Americans*, Vol. I. New York: Facts on File, Inc., 2003. 262p. Includes baseball players like Jackie Robinson.

G. INDIVIDUAL BIOGRAPHY (ARRANGED ALPHABETICALLY)

The purpose of this part, the largest in the bibliography, is to draw attention to the thousands of print sources available on players, managers, coaches, umpires, executives, media personnel, and others associated with our “National Pastime.” It is arranged alphabetically by the last name of the person profiled, beginning with Henry Aaron. The criterion for inclusion is not significance, but whether or not data are available from other than newspapers in a length exceeding one page and were uncovered before December 31, 2004.

Despite the most ardent research, correspondence with SABR members and team officials, and further generous assistance by personnel at the National Baseball Library, it is probable that many of the individuals associated with the game over the years have been omitted because information about them was not found or did not meet inclusion criteria. This may especially be true in the case of local Sunday newspaper supplements or college alumni magazines to which the author had no access. As in the original *Baseball: A Comprehensive Bibliography* and its 1992 and 1997 supplements, we ask users, in the event they have or find non-newspaper printed items on excluded individuals or items we have missed on people included, that information should be forwarded to the publisher for use in any supplements or a third edition.

In addition to providing bibliographic data on the 3,904 people referenced below, special effort has been made to provide basic biographical profiles. Information given is based on references

cited in the previous parts, as well as on information in back issues of *The Sporting News*, the files of the National Baseball Library, and in materials provided by many of the pro teams. Each individual receives the following workup: full name plus nickname(s); an indication of playing position or other baseball function; place and date of birth and date of death (when available); for playing personnel, a chronological list of major league teams associated with plus dates; and various miscellaneous information in a brief concluding paragraph or so. The miscellaneous information may include, for playing personnel, an indication of batting or pitching performance post-playing career information, such as managerships, minor league associations, franchise ownerships, broadcasting activities, or non-baseball activities. For nonplaying personnel, information may include such data as teams owned or leagues run for executives, years of service for umpires, or news organizations employed by for reporters or broadcasters. Special attention is paid to those individuals who have been (through January 2005) elected to the National Baseball Hall of Fame. In addition to biographical information for each of these (whose names are starred), the exact wording of the achievement portion of his Hall of Fame plaque or web-page biography is reproduced, courtesy of the National Baseball Hall of Fame and Museum. Where appropriate, links to profiles in the online SABR Biography Project are included in the annotation to a subject's first entry. A complete list of these may be found at <http://bioproj.sabr.org>.

In order that biographical detail may be kept as succinct as possible, the following abbreviations are employed for functions and leagues.

FUNCTION

P=Pitcher

C=Catcher

1B=First Baseman

2B=Second Baseman

SS=Shortstop

3B=Third Baseman

MGR=Manager

EXEC=Executive

OF=Outfielder (R, L, Center)

UMP=Umpire

VP=Vice President

MAJOR LEAGUE

NL=National League (1876-Date)

AL=American League (1901-Date)

AA=American Association

U=Union Association (1884)

P=Players (Brotherhood) (1890)

FL=Federal League (1914-15)

EL=Eastern League

PCL=Pacific Coast League

IL=International League

SA=Southern Association

SL=Southern League

EL=Eastern League

TL=Texas League

NEL=New England League

WL=Western League

NYPL=New York-Penn League

ACTIVITY

AB=At Bat

ALCS=American League

NLCS=National League

Championship Series Championship Series

HONOR

★ = Elected to National Baseball Hall of Fame

Finally, users should note that many of the citations attributed to playing personnel, especially those from the early 20th century, were either ghostwritten entirely or compiled, as the result of interviews, by anonymous editors or writers.

Henry Louis ("Hank") Aaron★

OF-EXEC. (B. Feb. 5, 1934, Mobile, AL). Indianapolis Clowns, 1951; Milwaukee (NL) and Atlanta (NL), 1954-1974; Milwaukee (AL), 1975-1976. Remarks: Obtained 3,771 hits (755 homers) and 1,477, long-hits (doubles, triples), had 2,297 RBIs and 6,856 total bases in 12,364 at-bats in 3,298 games in 23 seasons; led NL in doubles, 1955-1956, 1961, 1965; appeared in 1957-1958 World Series, obtaining a cumulative 20 hits (two doubles, one triple, three homers) and seven RBIs; NL MVP Award, 1957, 1960, 1963, and 1966; NL batting champion, 1956 and 1959; NL home run champion, 1957, 1963, 1966, and 1967; NL RBI champion, 1957, 1960, 1963, and 1966; had five hits (two doubles, three homers) and seven RBIs in 1969 NLCS; formerly held major league records for: most games played lifetime (3,298) and most career at-bats (12,364); holds major league records for most career home runs (755), most plate appearances (13,940), most years 100 or more runs scored (15), most years 300 or more total bases (15), most career RBIs (2,207), most career extra-base hits (3,085), most consecutive seasons of play in 100 or more games (22), most long hits lifetime (1,477) plus other major league and NL marks; had 16 career grand slam homers (seventh on the all-time list); brother of Tommie Lee Aaron (below); vice-president and-director of player personnel, Atlanta (NL), 1977-; elected to National Baseball Hall of Fame in 1982, where his plaque reads: "Hit 755 home runs in 23-year career to become majors' all-time homer king. Had 20 or more for 20 consecutive years, at least 30 in 15 seasons and 40 or better eight times. Also set records for games played (1,299), at-bats (12,364), long hits (1,477), total bases (6,936), runs batted in (2,297).

Paced NL in batting twice and homers, runs batted in and slugging pct. four times each. Won Most Valuable Player Award in NL in 1957."
